

# DelBene WA-01 Project Funding

President Biden signed fiscal year 2024 funding legislation, which included nearly \$18M for 15 community projects across Washington's 1st Congressional District that were championed by Congresswoman Suzan DelBene (WA-01).

## **SR-531 Trail (City of Arlington)**

**\$1,000,000**

This project will build a multi-use trail to provide a safe pathway for pedestrians and bicyclists.

## **City of Bellevue Police Department Body-worn Camera Program (City of Bellevue)**

**\$963,000**

This project will help increase accountability and transparency between police officers and members of the Bellevue community.

## **Electric Engines & Charging (Cities of Bellevue and Redmond)**

**\$1,000,000**

This project supports the Cities of Bellevue and Redmond in acquiring two electric fire engines and associated charging infrastructure.

## **Woodcrest Utility Replacement Project (City of Bothell)**

**\$959,752**

This project will modernize failing water utilities in the Woodcrest neighborhood.

## **Swamp Creek Tributary Culvert Replacement Project (City of Kenmore)**

**\$1,300,000**

This project replaces a culvert that is currently blocking the passage of migrating salmon and other fisheries.

## **Cedarwood Community Recreation Center (City of Lake Stevens):**

**\$1,366,279**

This project will help families access healthy before and after school care, flexible meeting and/or classroom space, and remove blight from the surrounding area in Lake Stevens.

## **Grove Street Overcrossing (City of Marysville)**

**\$850,000**

This project will construct an overcrossing that would span the existing at-grade crossing, providing congestion relief and improving safety.

# DelBene WA-01 Project Funding

## **Main Street Revitalization Project (City of Mountlake Terrace)**

**\$850,000**

The project will redevelop the downtown infrastructure necessary to facilitate dense housing within the walkshed of the Sound Transit light rail station opening later this year.

## **AC Water Main Replacement (City of Redmond):**

**\$959,752**

This project will replace an asbestos cement water pipe that has reached the end of its useful life.

## **Staff Little Bear Creek Culvert Replacement Project (City of Woodinville):**

**\$850,000**

This project will replace a culvert and restore fish habitat within Little Bear Creek.

## **Staff NWIRC Innovation Center Network (Northwest Innovation Resource Center)**

**\$850,000**

This project will establish an innovation center in Arlington to help entrepreneurs and small businesses explore new technologies and remain competitive.

## **Chinook Marsh (Snohomish County)**

**\$959,752**

This project will restore approximately 430 acres of tidal habitat benefiting Endangered Species Act-listed Chinook Salmon and relocate a drinking water transmission line.

## **Food & Farming Center (Snohomish County)**

**\$5,000,000**

This funding will complete the processing, aggregation, and distribution center portion of the Snohomish County Food and Farming Center.

## **Ash Way Station (Sound Transit)**

**\$500,000**

This project will provide funds for the design of the Ash Way Station, which is part of the Everett Link Extension.

## **SR-530 Roundabout (Stillaguamish Tribe)**

**\$500,000 a**

This project will construct a roundabout at the SR-530 & Smokey Point Blvd in Arlington, WA.
