

Hi Everyone,

On behalf of Congresswoman Suzan DelBene, thank you for your continued interest in federal grants and funding opportunities. This newsletter is designed to provide a high-level overview of new and upcoming federal funding opportunities to support the important work you do in our communities.

Linked here, you will find federal grant opportunities currently available and below are some key highlights. Please note that this list is not a comprehensive list of all grant opportunities available. You may find additional opportunities by searching Grants.gov.

This month, we want to highlight two grants from the Department of Justice (DOJ) and the National Endowment for the Humanities (NEH), designed to support law enforcement activities and professional development programs for teachers in our communities.

NIJ FY2026 Research and Evaluation on Drones as First Responders

The National Institute of Justice (NIJ), within the DOJ, is now accepting applications for the FY2026 Research and Evaluation on Drones as First Responders program. This funding opportunity supports rigorous research and evaluation of law enforcement agencies' use of small drones, with the goal of providing actionable information about how drone technology is implemented and its operational performance.

Eligible applicants include state and local governments, federally recognized tribal governments, nonprofit organizations, for-profit organizations, small businesses, and public and private institutions of higher education. The program encourages collaboration between law enforcement agencies and research entities to evaluate existing drone programs or implement new pilot programs and demonstrations. More information on eligibility criteria can be found **here**.

Projects should evaluate drones as first responders (DFR) and examine their implementation and use in law enforcement activities, including efforts to address violent crime. Participating law enforcement agencies may retain drone technology purchased through the grant at the conclusion of the study. **Applications are due November 30, 2026, through Grants.gov, with full applications due December 7, 2026, through JustGrants**. More information on the program and application requirements can be found **here**.

Landmarks of American History and Culture and Summer Institutes

NEH is now accepting applications for the Landmarks of American History and Culture and Summer Institutes program. This program supports humanities education through professional development programs for K-12 teachers and higher education faculty members. These programs bring educators together to deepen their understanding of significant topics in the humanities and strengthen their teaching and curriculum development.

Eligible applicants include public and private institutions of higher education, state and local governments, special district governments (like school districts), federally recognized tribal governments, and nonprofit organizations with 501(c)(3) status. The program supports residential summer workshops that engage educators with historical sites, museum and library collections, and other educational resources. More information on eligibility criteria and application requirements can be found **here**.

This program aims to enrich educators' knowledge of the humanities and equip them with new resources and approaches to bring humanities subjects into their classrooms. Successful applicants will convene the same project in two consecutive summers — 2028 and 2029 — with a different group of participants each summer. The maximum award is $460,000 and **applications are due December 9, 2026.** More information for K-12 educators can be found **here**, and information for higher education faculty can be found **here**.

In addition to these funding opportunities, our office can also help your grant efforts with a letter of support for any federal grant application. If you would like to request a letter of support, please contact Shelby.kremenich@mail.house.gov to learn more about how our office can help you.

We also want to recognize that the federal grants landscape has significantly changed over the past year. If your organization has had its federal grants, loans, or assistance frozen or restricted in any way, or if you need assistance, our office wants to hear from you. Please reach out at delbene.house.gov/contact. You can also find more information on grants and assistance on our website here, and a list of all our past federal grants newsletters here.

Please don't hesitate to reach out if our office can be of assistance.

Open Federal Funding Opportunities

Affordable Housing

Fair Housing Initiatives Program Education and Outreach Initiative (Department of Housing and Urban Development)

Info: Congress in 1988 established the Fair Housing Initiatives Program (FHIP) with a purpose of providing funding to entities to work alongside HUD to "prevent or eliminate discriminatory housing practices" 42 USC § 3616a(a). FHIP provides funds to eligible organizations through competitive grants. under several initiatives. The overarching purpose of the FHIP Education and Outreach Initiative (EOI) is to educate the public, housing providers and other stakeholders about their rights and obligations under provisions of fair housing laws, through the development, implementation, carrying out and coordinating or education and outreach programs. 42 USC § 3616a(d)(1); 24 CFR 125.301(a).The National Media Campaign component (EOI-NMC) is "designed to provide a centralized, coordinated effort for the development and dissemination of fair housing media products." 42 USC § 3616a(d)(1). A portion of NMC funds are specifically meant to increase participation in the annual national fair housing month. Under a cooperative agreement, HUD will exercise the right to approve, and have substantial involvement in, all proposed deliverables, as well as the Work Plan or Statement of Work (SOW). The General Component (EOI-GC) is designed to carry out projects programs that prevent or eliminate discriminatory housing practices by establishing or supporting regional, local, and community- based education and outreach activities, events, and programs. For grants and cooperative agreements, HUD will conduct monitoring reviews, request quarterly reports, and approve all proposed deliverables as documented in the applicant's Work Plan or SOW. Most EOI funds are awarded under grant agreements. However, national funds are awarded under cooperative agreements managed by Headquarters since the awards have a nationwide impact and therefore require more complex and frequent oversight as well as Departmental approval of deliverables.
Applicants: Individuals are ineligible applicants. If you are applying with other organizations (co-applicants or members of a consortium), the lead organization needs to meet all eligibility requirements. If not, your application is not eligible for funding. Eligible Entities for National Media Campaign Component (EOI-NMC): Qualified Fair Housing Enforcement Organizations, Fair Housing Enforcement Organization, and Other nonprofit organizations representing groups of persons protected under the Fair Housing Act (which might include public interest litigation firms, religious liberty groups, trade associations, etc.) Experience Requirement: in order to be selected for an award under the National Media Campaign component, your organization must have at least 5 years of experience as an advertising, media or public relations organization with strong understanding of adult learning theory, instructional design, and design thinking; or must have a partnership with an advertising and media services organization with at least 5 years of experience as an advertising, media or public relations organization with strong understanding of adult learning theory, instructional design, and design thinking. You will indicate your experience requirement in the Applicant Certification (Appendix B). Eligible Entities for General Component (EOI-G): Qualified Fair Housing Enforcement Organizations, Fair Housing Enforcement Organizations, Other nonprofit organizations representing groups of persons protected under the Fair Housing Act, Agencies that participate in the Fair Housing Assistance Program (FHAP), Other agencies of State or local governments, and Other public or private entities that are formulating or carrying out programs to prevent or eliminate discriminatory housing practices (which might include public interest litigation firms, religious liberty groups, trade associations, etc.). Individuals, foreign entities, and sole proprietorship organizations are not eligible to compete for, or receive, awards made under this announcement.
Closing: November 02, 2026

ROSS Rapid Response Program (Department of Housing and Urban Development)

Info: The ROSS Rapid Response Program (RRP) awards one-time assistance via a cost-reimbursable grant for service coordination and limited direct services for residents of HUD-assisted housing. The RRP utilizes a simplified application process to promote local leadership and flexibility in addressing urgent social needs caused by unanticipated emergencies. Examples of these emergencies can include but are not limited to: • Natural disasters (e.g., wildfires or hurricanes) • Public health crises (e.g., gun violence, community-level contamination or environmental hazards) • Economic disruptions (e.g., closure of a major employment center that employs residents at the target site).
Applicants: Public housing authorities/Indian housing authorities; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Native American tribal governments (Federally recognized); Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; Others.
Closing: January 25, 2027

Agriculture & Nutrition

Emergency Citrus Disease Research and Extension Pre-Applications (Department of Agriculture – National Institute of Food and Agriculture)

Info: In FY 2026, the ECDRE program, under Assistance Listing 10.309, is soliciting proposals to develop effective tactics and strategies to control HLB and its disease complex for financially sustainable citrus production in the United States. All projects funded by the ECDRE program will incorporate collaborative approaches that integrate available knowledge to develop new solutions that can be deployed by growers to manage and prevent HLB infection in the near term.
Applicants: Pre-applicants for the ECDRE must meet all the requirements discussed in this NOFO. Failure to meet the eligibility criteria by the application deadline may result in exclusion from consideration for those new to Federal financial assistance, NIFA's About Grants provides highly recommended information about grants and other resources to help understand the Federal awards process. Pre-applications for the ECDRE may only be submitted by Federal agencies, national laboratories, colleges and universities, research institutions and organizations, private organizations or corporations, State Agricultural Experiment Stations, the Cooperative Extension Service, individuals, or groups consisting of two or more of these entities. Duplicate or Multiple Submission. Duplicate or multiple submissions with the same lead PD are not allowed. NIFA will disqualify both applications if an applicant submits duplicate or multiple submissions. However, an applicant may act as a Co-PD on multiple unique submissions as well as submit a single unique application as the Lead PD in the same fiscal year. USDA will not accept competitive applications for grant and cooperative agreements submitted for dangerous gain-of-function research, as defined in Section 8 of E.O. 14292.
Closing: November 02, 2026

Capacity Building Grants for Non-Land-Grant Colleges of Agriculture Program (Department of Agriculture – National Institute of Food and Agriculture)

Info: The NLGCA Program, under assistance listing number 10.326, will assist NLGCA institutions in maintaining and expanding their capacity to conduct education, research, outreach, and integrated activities relating to agriculture, renewable resources, and other similar disciplines. NLGCA institutions may use the funds to maintain and expand capacity:
1. to successfully compete for funds from Federal grants and other sources to carry out educational, research, outreach, and integrated activities that address priority concerns of national, regional, State, and local interest;

2. to disseminate information relating to priority concerns to:
a. interested members of the agriculture, renewable resources, and other relevant communities;
b. the public; and
c. any other interested entity;
3. to encourage members of the agriculture, renewable resources, and other relevant communities to participate in priority education, research, outreach, and integrated activities by providing matching funds to leverage grant resources, and through:
a. the purchase or other acquisition of equipment and other infrastructure (not including alteration, repair, renovation, or construction of buildings);
b. the professional growth and development of the faculty of the NLGCA Institution; and
c. the development of graduate assistantships.
Applicants: Applications may only be submitted by an NLGCA certified as such by NIFA at the time of application. A current list of NLGCAs certified by NIFA can be found on the NLGCA Program webpage or the NLGCA List webpage. In order for an institution to qualify as a NLGCA, it must be a public college or university offering a baccalaureate or higher degree in the study of agricultural sciences, forestry, or both, among the 32 specified Areas of Study: Agricultural and domestic animal services; agricultural and extension education services; agricultural and food products processing; agricultural business and management; agricultural communication or agricultural journalism; agricultural economics; agricultural engineering; agricultural mechanization; agricultural production operations; agricultural public services; agriculture; animal sciences; applied horticulture or horticulture operations; aquaculture; equestrian/equine studies; floriculture or floristry operations and management; food science; forest sciences and biology; forestry; greenhouse operations and management; international agriculture; natural resource economics; natural resources management and policy; natural resources or conservation; ornamental horticulture; plant nursery operations and management; plant sciences; range science and management; soil science; turf and turfgrass management; urban forestry; and wood science and wood products or pulp or paper technology. If you are not sure if you are eligible to request NLGCA designation, please consult the NLGCA Eligibility Flow Chart.
Closing: November 10, 2026

MPPEP Phase 3 Invasive Wild-Caught Catfish (Department of Agriculture – Rural Business-Cooperative Service)
Info: The Meat and Poultry Processing Expansion Program (MPPEP) provides grants to help eligible meat and poultry processors expand their capacity, which creates new, better and more processing options for meat and poultry producers. The goal for MPPEP Phase 3 Round 2 is to support Processors of Invasive, Wild-Caught Catfish species by increasing Processing capacity and providing greater opportunity in this sector. Strategies that can fulfill the goal of this NOFO and ensure lasting impacts include projects to increase Processing capacity; increase Processing volume; elevate incomes for both fishers and Processors; and to provide fair wages, and new, stable and safe job opportunities at Processing facilities to increase economic development in rural communities.
Applicants: State governments; count governments; city or township governments; Native American tribal governments, Native American tribal organizations, tribes, and tribal entities; nonprofits having a 501(c)(3) status with the IRS, other than institutes of higher education; for profit organizations other than small businesses; small businesses; small businesses.
Closing: December 07, 2026

Agriculture and Food Research Initiative Competitive Grants Program Foundational and Applied Science Program (Department of Agriculture – National Institute of Food and Agriculture)

Info: The AFRI Foundational and Applied Science Program supports grants in six AFRI priority areas to advance knowledge in both fundamental and applied sciences important to agriculture. The six priority areas are: Plant Health and Production and Plant Products; Animal Health and Production and Animal Products; Food Safety, Nutrition, and Health; Bioenergy, Natural Resources, and Environment; Agriculture Systems and Technology; and Agriculture Economics and Rural Communities. Research-only, extension-only, and integrated research, education and/or extension projects are solicited in this Request for Applications (RFA).
Applicants: 1862 Land-grant Institutions; 1890 Land-grant Institutions; 1994 Land-grant Institutions; For-profit Organizations Other Than Small Businesses; Hispanic-Serving Institutions; Individuals; Native American Tribal Orgs, not Federally recognized Tribal Governments; Nonprofits with 501(c)(3) IRS status, other than Institutions of Higher Ed; Nonprofits without 501(c)(3) IRS status, other than Institutions of Higher Ed; Other or Additional Information (See below); Small Business; State Agricultural Experiment Stations; and State Controlled Institutions of Higher Ed.
Closing: December 31, 2026

Agriculture and Food Research Initiative (National Institute of Food and Agriculture – Foundational and Applied Science Program)
Info: The AFRI Foundational and Applied Science Program supports grants in six AFRI priority areas to advance knowledge in both fundamental and applied sciences important to agriculture. The six priority areas are: Plant Health and Production and Plant Products; Animal Health and Production and Animal Products; Food Safety, Nutrition, and Health; Bioenergy, Natural Resources, and Environment; Agriculture Systems and Technology; and Agriculture Economics and Rural Communities. Research-only, extension-only, and integrated research, education and/or extension projects are solicited in this Notice of Funding Opportunities (NOFO). See Foundational and Applied Science NOFO for specific details.
Applicants: 1862 Land-grant Institutions;1890 Land-grant Institutions;1994 Land-grant Institutions; For-profit Organizations Other Than Small Businesses; Hispanic-Serving Institutions; Individuals; Native American Tribal Orgs, not Federally recognized Tribal Governments; Nonprofits with 501(c)(3) IRS status, other than Institutions of Higher Ed; Nonprofits without 501(c)(3) IRS status, other than Institutions of Higher Ed; Small Business; State Agricultural Experiment Stations; and State Controlled Institutions of Higher Ed.
Closing: December 31, 2026

Agriculture and Food Research Initiative Competitive Grants Program Education and Workforce Development (Department of Agriculture – National Institute of Food and Agriculture)
Info: The Agriculture and Food Research Initiative - Education and Workforce Development (EWD) focuses on developing the next generation of research, education, and extension professionals in the food and agricultural sciences. The National Institute of Food and Agriculture (NIFA) requests applications for the AFRI's Education and Workforce Development program areas to support: 1. professional development opportunities for K-14 educational professionals; 2. non-formal education that cultivates food and agricultural interest in youth; 3. workforce training at community, junior, and technical colleges; 4. training of undergraduate students in research and extension; 5. fellowships for predoctoral candidates; 6. fellowships for postdoctoral scholars; and 7. education and workforce development workshop grants.
Applicants: Eligibility is linked to the project type as specified below.1. Research, Education, or Extension Projects Eligible applicants for single-function Research, Education or Extension Projects include: a) State Agricultural Experiment Station; b) colleges and universities (including junior colleges offering associate degrees or higher); c) university research foundations; d) other research institutions and organizations; e) Federal agencies; f) national laboratories; g) private

organizations or corporations; h) individuals who are U.S. citizens, nationals, or permanent residents; and i) any group consisting of two or more entities identified in a) through h).Eligible institutions do not include foreign and international organizations. 2. Integrated Projects: Eligible applicants for Integrated Projects include: a) colleges and universities; b) 1994 Land-Grant Institutions; and c) Hispanic-serving agricultural colleges and universities. A research foundation maintained by a college or university is eligible to receive an award under this program. 3. Food and Agricultural Science Enhancement Grants. Part II, C.2 contains the eligibility details for Food and Agricultural Science Enhancement (FASE) Grants. Note that under FASE opportunity, only Strengthening Standard, Predoctoral Fellowship Grants, Postdoctoral Fellowship Grants, and Strengthening Workshop are solicited in this NOFO. Applicants must respond to the Program Area Priorities and deadlines found in Part I, C. Grant recipients may subcontract to organizations not eligible to apply provided such organizations are necessary for the conduct of the project. USDA will not accept competitive applications for grants and cooperative agreements submitted for due dates after June 20, 2025, and/or research and development (R&D) contract proposals submitted to solicitations issued after June 20, 2025, for dangerous gain-of-function research.
Closing: December 31, 2026

Agriculture Innovation Center Grant Program (Department of Agriculture – Rural Business-Cooperative Service)

Info: The primary objective of the program is to provide grants to Agriculture Innovation Centers that will provide technical assistance to agricultural producers to market value-added agricultural products. Grant and matching funds may be used to operate an agriculture innovation center, and to provide the following services to agricultural producers: Business development services, such as feasibility studies and business plans; market development services, such as marketing plans, branding, and customer identification; organizational assistance, such as legal and technical advisory services related to the development, expansion, or operation of a business; financial advisory services related to the development, expansion, or operation of a business, such as assistance with obtaining credit for operating costs, training on using financial management software, and guidance on use of cash flow; process development services, such as engineering services, scale production assessments, and systems development; product development, such as idea generation, concept testing, feasibility and cost analysis, product taste-testing, demographic and other types of consumer analysis, production analysis, recipe development, evaluation of packaging and labeling options, and brand development for a value-added agricultural product; value chain coordination, or directly working with an agricultural producer to connect that producer to a distribution system, processing facility, or commercial kitchen; grants to agricultural producers for the above services, where the individual award does not exceed $5,000.
Applicants: County governments; public and state controlled institutions of higher education; nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; for profit organizations other than small businesses; city or township governments; small businesses; Native American tribal governments (Federally recognized); state governments; private institutions of higher education.
Closing: January 31, 2027

Artificial Intelligence, Broadband, Cybersecurity & Technology

Unlocking Dataset Value for AI-Enabled Scientific Discovery (U.S. National Science Foundation)

Info: This program will advance scientific community datasets to enable scientific discovery and innovation using artificial intelligence (AI) and other methods. Its goal is to increase the value that can be derived from existing scientific datasets by leveraging novel methods and artificial intelligence (AI). This will unlock new AI-driven insights. It can enable interdisciplinary research. It also enables investigations outside of the original motivation for data collection and analysis. The program seeks to 1) apply AI-based capabilities to feature extraction and metadata generation, and the integration of multiple datasets. 2) Develop robust data pipelines necessary for automated analysis of existing datasets and similar use-cases by AI tools and systems. 3) Augment and/or harmonize existing datasets to better enable use by AI data pipelines and automated analysis. Proposals should address dataset security and integrity. Governance and the process for scientific communities to contribute to the datasets should also be addressed. Proposals are encouraged to leverage existing resources. These may include NSF data platforms, the NSF Integrated Data Systems and Services program, the NSF-led National AI Research Resource, the Genesis Mission platform, or other national infrastructure. NSF is open to exploring partnerships with philanthropy, private industry, or the non-profit sector to support additional proposals or collaborative opportunities that will advance AI-driven scientific discovery through unlocking the value of high-impact scientific datasets. Expanding Participation in STEM, NSF Priorities, and Gold Standard Science: NSF prioritizes cutting-edge discovery science and engineering research, advancing technology and innovation, and creating opportunities for all Americans. NSF has established priorities set forth by Congress, the administration and the NSF director to promote NSF's mission. Proposers should review the list of NSF priorities and are encouraged to align their proposals with them, where appropriate. NSF also expects the highest standards of scientific rigor, integrity and adherence tenets of Gold Standard Science in proposals, as appropriate for the field of science and research modality.
Applicants: For-profit organizations: U.S.-based commercial organizations, including small businesses, with strong capabilities in scientific or engineering research or education and a passion for innovation; Non-profit, non-academic organizations: Independent museums, observatories, research laboratories, professional societies and similar organizations located in the U.S. that are directly associated with educational or research activities; Other Federal Agencies and Federally Funded Research and Development Centers (FFRDCs): Prospective proposers from other Federal Agencies and FFRDCs, including NSF sponsored FFRDCs, must follow the guidance in PAPPG Chapter I.E.2 regarding limitations on eligibility; State and Local Governments; Institutions of Higher Education (IHEs): Two- and four-year IHEs (including community colleges) accredited in, and having a campus located in the US, acting on behalf of their faculty members; Tribal Nations: An American Indian or Alaska Native tribe, band, nation, pueblo, village, or community that the Secretary of the Interior acknowledges as a federally recognized tribe pursuant to the Federally Recognized Indian Tribe List Act of 1994, 25 U.S.C. §§ 5130-5131.
Closing: Nov 04, 2026

State and Regional Artificial Intelligence Infrastructure Hubs (U.S. National Science Foundation)

Info: The NSF State and Regional AI Infrastructure Hubs program aims to expand access to the compute required for AI-enabled scientific discovery and to transform the research, education, and training opportunities offered by institutions of higher education. AI Infrastructure Hubs will connect researchers to new compute infrastructure that leverages contributions from state governments, research institutions, industry, and philanthropy, accelerating AI-enabled discovery across science and engineering and developing a skilled technical workforce for AI use in the scientific enterprise.
The program responds to a core tenet of *Science: A New Golden Age* to renew America's research and development (R&D) for changes in today's scientific enterprise, including the role

of AI in laying the foundation for a new era of scientific discovery and the growing role of industry and philanthropy in funding R&D. In response, the Administration's FY28 R&D Priorities Memorandum called for investing in AI for science as a national mission and expanding the scale of, and flexible access to, advanced compute and data infrastructure that researchers now require for frontier scientific discovery.
Each AI Infrastructure Hub will be organized as a flexible state or regional consortium of state and local governments, research institutions, philanthropies, and the private sector. Consortia will be responsible for all funding for new or expanded computing, data, and AI resources, whether on-premises or cloud-based. NSF will fund each Hub's consortium coordination, AI infrastructure workforce development, and faculty training and coursework development in leveraging AI for science.
Applicants: Non-profit, non-academic organizations: Independent museums, observatories, research laboratories, professional societies and similar organizations located in the U.S. that are directly associated with educational or research activities; Institutions of Higher Education (IHEs): Two- and four-year IHEs (including community colleges) accredited in, and having a campus located in the US, acting on behalf of their faculty members.
Closing: November 04, 2026

Defense University Research Instrumentation Program (Department of Defense – Office of Naval Research)
Info: In accordance with EO 14332, Improving Oversight of Federal Grantmaking, dated 7 August 2025, and EO 14303, Restoring Gold Standard Science, dated 23 May 2025, this Announcement seeks proposals from universities to purchase equipment and instrumentation in support of research in areas of interest to the DoW, reflecting the basic research priorities for the Department of War and advancing the administration and agency priorities (c.f., OMB memo M-25-34 "Fiscal Year 2027 Administration Research and Development Budget Priorities and Cross-Cutting Actions").
DoW interests include the areas of research supported by the Army Research Office (ARO), the Office of Naval Research (ONR), and the Air Force Office of Scientific Research (AFOSR).
A central purpose of the DURIP is to provide equipment and instrumentation to enhance research related education in areas of interest and priority to the DoW. Therefore, your proposal must address the impact of the equipment or instrumentation on your institution's ability to educate students through research in disciplines important to DoW missions.
Applicants: This competition is open to accredited U.S. institutions of higher education with degree granting programs in science, mathematics, and/or engineering except for-profit educational institutions. University Affiliated Research Centers (UARCs) are eligible to participate in this competition. Federally Funded Research and Development Centers are not eligible to participate.
Closing: November 06, 2026

Defense University Research Instrumentation Program (Department of Defense – Air Force Office of Scientific Research)
Info: The Department of Defense (DoD) announces the Fiscal Year 2027 Defense University Research Instrumentation Program (DURIP). DURIP is designed to improve the capabilities of accredited United States (U.S.) institutions of higher education to conduct research and to educate scientists and engineers in areas important to national defense, by providing funds for the acquisition of research equipment or instrumentation. For-profit organizations are not eligible for DURIP funding.
Applicants: Public and State controlled institutions of higher education; Private institutions of higher education.
Closing: November 6, 2026

Defense University Research Instrumentation Program (Department of Defense – Department of the Army Materiel Command)
Info: The Department of War (DoW) announces the Fiscal Year 2027 Defense University Research Instrumentation Program (DURIP). DURIP is designed to improve the capabilities of accredited United States (U.S.) institutions of higher education to conduct research and to educate scientists and engineers in areas important to national defense, by providing funds for the acquisition of research equipment or instrumentation. For-profit organizations are not eligible for DURIP funding.
Applicants: This competition is open to accredited U.S. institutions of higher education with degree granting programs in science, mathematics, and/or engineering except for-profit educational institutions. University Affiliated Research Centers (UARCs) are eligible to participate in this competition.
Closing: November 6, 2026

Defense Sciences Office BAA (Department of Defense – Defense Advanced Research Projects Agency Defense Sciences Office)
Info: The Defense Advanced Research Projects Agency (DARPA) Defense Sciences Office (DSO) is soliciting proposals which investigate innovative approaches that enable revolutionary advances in science, devices, or systems for national security applications. Specifically excluded is research that primarily results in evolutionary improvements to the existing state of practice.
Applicants: All responsible sources capable of satisfying the Government's needs may submit a proposal that shall be considered by DARPA. See the Eligibility Information section of the BAA for more information.
Closing: August 27, 2027

Air Force Basic Research Sciences Conference and Workshop Support (Department of Defense – Air Force Office of Scientific Research)
Info: The Air Force Office of Scientific Research manages the basic research investment for the Department of the Air Force. Conferences and workshops constitute key forums for research and technology interchange. We provide partial support for conferences and workshops as defined in the DoW Joint Travel Regulations in special areas of science that bring experts together to discuss recent research or educational findings, or to expose other researchers or advanced graduate students to new research and educational techniques in our areas of research interest. Our research interests are described in the most recent version of our general Broad Agency Announcement titled, “Research Interests of the Air Force Office of Scientific Research” posted on Grants.gov.
Applicants: We can only consider funding requests from U.S. institutions of higher education (IHE) or nonprofit organizations as described in 2 CFR 200.1, including foreign public entities and foreign organizations operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest. We do not award grants to organizations with a for-profit organization type.
Closing: August 31, 2029

Chemical Process Systems (U.S. National Science Foundation)
Info: Society relies on chemical processes to turn raw materials into useful products. The Chemical Process Systems (CPS) program invests in fundamental research on chemical and biochemical processes to make them more efficient, sustainable, and resilient. New CPS technologies for manufacturing, biotechnology, critical minerals, energy, food, and other national priorities will help make the U.S. more competitive and secure. Research supported by the CPS

program covers the full breadth of chemical and biochemical process innovation. It spans reaction engineering and molecular thermodynamics; reactor design; catalysis; electrochemical systems; separations; and process design. The program encourages proposals that connect the molecular scale to process and plant scales. The CPS program explores active-site structure and function, reaction mechanisms, in situ and operando characterization, durability, and device-level integration. Microreactors, membrane and catalytic reactors, atmospheric plasmas, and other novel configurations are of interest. The program supports research in catalysis and electrochemical systems to produce, use, and store energy, to reduce waste, to process polymers, and to synthesize fuels and chemicals. This includes process and materials innovation to support the nuclear fuel cycle. The CPS program also targets chemical and biological separations that are efficient and scalable. Research includes the design of membranes, sorbents, and specialized interfaces. Advances can be used in gas separations, the recovery of critical minerals, bioprocessing, and protein and water purification. The program supports research in process design and optimization that uses tools such as artificial intelligence, machine learning, and uncertainty quantification. CPS research also explores quantum information science and engineering; quantum simulation and sensing, for example, may accelerate the discovery of materials and improve process models.
Applicants: Unrestricted.
Closing: Proposals accepted anytime

Engineering Environmental Resiliency (U.S. National Science Foundation)
Info: The Engineering Environmental Resiliency (EER) program supports fundamental research to advance resource and energy conservation and recovery, and to safeguard the natural environment and human health. Better use of domestic resources will help make U.S. manufacturing and energy systems more resilient and secure. EER projects advance artificial intelligence; biotechnology; quantum science and engineering; nanoengineering; microelectronics; and other national priorities. EER supports research that transforms biotechnology and manufacturing to create domestic sources of energy; engineered chemical, biological, and/or geo-physical processes may be involved. The program supports studies on the sustainability of benign manufacturing. EER supports the development of innovative technologies that minimize or re-use waste discharges to soil, water, and air by closing resource loops. EER also supports research on sustainable recycling and management of waste materials and critical minerals. EER supports studies on life cycle assessment, materials flow analysis, and AI modeling to advance the circular economy. EER research encompasses the chemistry, biochemistry, transport, and fate of nutrients and contaminants of emerging concern in air, water, soil, and sediments. It also includes the biochemical reactivity of pollutants in the built environment. EER welcomes ideas that grow fundamental and quantitative understanding of how nanomaterials and nanosystems interact with biological and environmental media. The program also supports research on engineered systems that safeguard health and quality of life through the accurate detection of and rapid response to pathogens and toxins in water, soil and air. Proposals with a main goal of understanding earth systems are more appropriate for the NSF Directorate for Geosciences. Proposals that focus on human behavior or social responses to environmental issues are a better fit for the NSF Directorate for Social, Behavioral and Economic Sciences.
Applicants: Unrestricted.
Closing: Proposals accepted anytime

Arts, Humanities & K-12 Education
Impact Aid Discretionary Construction Grant Program (Department of Labor – Office of Elementary and Secondary Education)

Info: The Employment and Training Administration at the U.S. Department of Labor (DOL) is soliciting applications in support of the administration of the Impact Aid Discretionary Construction Grant Program on behalf of the U.S. Department of Education (ED). The Impact Aid Discretionary Construction Grant Program provides grants to eligible Impact Aid Local Educational Agencies (LEAs) to assist in addressing their school facility emergency and modernization needs. This competition is limited to emergency grants that meet the absolute priority and other requirements in this notice. The competition uses existing statutory authority and appropriated funds to address urgent school facility needs in federally connected communities while promoting responsible stewardship of taxpayer dollars.
Applicants: Independent school districts
Closing: November 10, 2026

Laura Bush 21st Century Librarian Program (Institute of Museum and Library Services)
Info: Laura Bush 21st Century Librarian (LB21) projects build a library and archival workforce that can meet the information needs of communities of all types and sizes and increase the institutional capacity of libraries, archives, and library and information science graduate programs across the country.
Applicants: See the notice of funding opportunity (NOFO) for eligibility information.
Closing: November 13, 2026

Native American Library Services Basic Grant (Institute of Museum and Library Services)
Info: The Native American Basic Grants (NAB) program assists eligible Native Communities in establishing, sustaining, and improving library services and operations with their communities. As information needs change, Tribal libraries must be able to serve as knowledge and resource centers to benefit their users and the wellness of their communities. The NAB program supports Native Communities across the country to address their individual information needs and priorities.
Applicants: Native American tribal governments (Federally recognized)
Closing: November 13, 2026

Native American Library Services Enhancement Grants (Institute of Museum and Library Services)
Info: The Native American Library Services Enhancement Grants program (NAE) assists eligible Native Communities in sustaining and improving library services with their communities. As information needs change, Tribal libraries must be able to serve as knowledge and resource centers to benefit their users and the wellness of their communities. The program supports Native Communities across the country to address their individual information needs and priorities.
Applicants: Native American tribal governments (Federally recognized)
Closing: November 13, 2016

Native Hawaiian Library Services Grants (Institute of Museum and Library Services)
Info: The Native Hawaiian Library Services (NH) program is designed to assist Native Hawaiian serving organizations in sustaining and improving library services with their communities. As information needs change, Native Hawaiian organizations must be able to serve as knowledge and resource centers to benefit their users and the wellness of their communities. The program supports organizations across the islands and country to address their individual information needs and priorities.
Applicants: To be eligible for an award under the Native Hawaiian Library Services (NH) Notice of Funding Opportunity, your organization must be a nonprofit organization that primarily serves and represents Native Hawaiians, as the term “Native Hawaiians” is defined in 20

U.S.C. § 7517(2), and that offers library services to the community. Such services may include, but are not limited to providing free access to:

- Books, print and electronic media;
- research databases;
- job, employment, and career resources;
- reference desk services;
- space for reading, studying, and meeting; and
- free events and activities such as programs, classes, and cultural events for all ages.

When you apply, you must provide documentation showing that your organization meets this statutory eligibility criteria. See Proof of Eligibility for more information about documentation required of nonprofit organizations that primarily serve and represent Native Hawaiians.
Closing: November 13, 2026

21st Century Museum Professionals Program (Institute of Museum and Library Services)
Info: The 21st Century Museum Professionals (21MP) grant program supports projects that build career pathways, strengthen professional networks, and identify and share effective workforce education and training practices in the museum field.
Applicants: See the notice of funding opportunity (NOFO) for eligibility information.
Closing: November 13, 2026

Inspire Grants for Small Museums (Institute of Museum and Library Services)
Info: Inspire Grants for Small Museums (Inspire) is a special initiative of the Museums for America grant program designed to support small museums of all disciplines, including small rural or small remote institutions and small museums that have not previously received federal funding. The program funds project-based efforts to serve the public through educational programs and exhibits, community partnerships, and collections stewardship activities. The goal of the Inspire program is to build the capacity of small museums to provide museum services to their communities through supporting the development of experiential learning and discovery in small museums, and the management and care of collections in small museums.
Applicants: See the notice of funding opportunity (NOFO) for eligibility information.
Closing: November 13, 2026

Museum Grants for African American History and Culture (Institute of Museum and Library Services)
Info: The Museum Grants for African American History and Culture (AAHC) program builds the capacity of African American museums and supports the growth and development of museum professionals at African American museums. The program supports projects that nurture museum professionals, build institutional capacity, and increase access to museum and archival collections at African American museums and Historically Black Colleges and Universities (HBCUs).
Applicants: See the notice of funding opportunity (NOFO) for eligibility information.
Closing: November 13, 2026

Museum Grants for American Latino History and Culture (Institute of Museum and Library Services)
Info: The Museum Grants for American Latino History and Culture (ALHC) program supports projects that build the capacity of American Latino history and culture museums to serve their communities and advance the growth and development of a professional workforce in American Latino cultural institutions.
Applicants: See the notice of funding opportunity (NOFO) for eligibility information.

Closing: November 13, 2026

Museums Empowered (Institute of Museum and Library Services)

Info: Museums Empowered: Professional Development Opportunities for Museum Staff is a special initiative of the Museums for America grant program, designed to support projects that use learning and training to generate change and growth within museums of all types and sizes. Museums Empowered supports projects that strengthen museum staff through professional development in three key areas:

- digital technology
- evaluation
- organizational management

The program aims to build staff skills in creatively and effectively using digital tools, communication platforms, and new and emerging technologies that expand access to collections; improve staff ability to apply evaluation methods, use data effectively, and tailor evaluation approaches to specific audiences or needs; and enhance organizational resilience by offering learning opportunities that address emerging institutional priorities and support staff identified growth needs. Strengthening museum staff includes building the capacity of individual museums to grow their own professional development programs using apprenticeships and other alternative pathways to upskill early-career professionals and provide opportunities for non-traditional applicants to enter the museum workforce.
Applicants: See the notice of funding opportunity (NOFO) for eligibility information.
Closing: November 13, 2026

Museums for America (Institute of Museum and Library Services)

Info: The Museums for America (MFA) program invests in museums of all sizes - from small to large - and disciplines in project-based efforts to serve the public through educational programs and exhibits, community partnerships, and collections stewardship activities.
The goals of the program are to advance a museum's capacity to:

- Serve people of all ages and backgrounds through experiential learning and discovery;
- Respond to community needs; and
- Manage and care for collections and their associated documentation.

IMLS seeks to fund museums across America, which play a crucial role as custodians of America's rich historical, artistic, cultural, scientific, and natural heritage for the benefit of all generations. The primary audiences for this program are museums, museum professionals, and the publics they serve.
Applicants: See the notice of funding opportunity (NOFO) for eligibility information.
Closing: November 13, 2026

National Leadership Grants for Museums (Institute of Museum and Library Services)

Info: The National Leadership Grants for Museums program (NLG-M) invests in projects that address critical needs of the museum field. NLG-M projects have the potential to advance practice in the profession to strengthen museum services for the public through the development and replication of model practices, tools, research findings, and collaborations, including through the creative and effective use of new and emerging technologies. The goals of the program are to advance the museum field's ability to:

- Advance museum-based learning and engagement practices in the museum field;
- Advance the museum field's ability to respond to community needs; and
- Identify new solutions that address high priority and widespread collections care or conservation issues.

The primary audiences for this program are museums, museum service organizations and affiliated nonprofits, and museum professionals. Secondary audiences include museum visitors and future museum professionals.
Applicants: See the notice of funding opportunity (NOFO) for eligibility information.
Closing: November 13, 2026

Native American/Native Hawaiian Museum Services (Institute of Museum and Library Services)
Info: The Native American/Native Hawaiian Museum Services program (NANH) supports Native American Tribes, Alaska Native Villages, and organizations that primarily serve and represent Native Hawaiians in sustaining heritage, culture, and knowledge. The program supports projects such as educational services and programs, workforce professional development, organizational capacity building, community engagement, and collections stewardship.
Applicants: Federally Recognized Indian Tribe; nonprofit organization that primarily serves and represents Native Hawaiians
Closing: November 13, 2026

National Leadership Grants for Libraries (Institute of Museum and Library Services)
Info: The National Leadership Grants for Libraries Program (NLG-L) supports projects that develop, enhance, or adapt replicable practices, programs, models, or tools to strengthen library and archival services for the American public. The program supports projects that:

- Serve the learning needs of the public through libraries and archives;
- Improve community prosperity through libraries and archives;
- Provide broad access to and preservation of information and collections through libraries and archives; or
- Provide services to affected communities in the event of an emergency or disaster.

Applicants: See the notice of funding opportunity (NOFO) for eligibility information.
Closing: November 13, 2026

Arts and Artifacts Domestic Indemnity Program 1 (National Endowment for the Arts)
Info: U.S. nonprofit museums and organizations planning temporary exhibitions within the United States may be eligible for Domestic Indemnity coverage for objects owned by U.S.-based entities. Though exhibitions considered for the Domestic program may contain works of art and/or artifacts from abroad, only the objects owned by U.S. entities are eligible for coverage within the Domestic Program.
Applicants: Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; City or township governments; Independent school districts; Public and State controlled institutions of higher education; County governments; State governments; Private institutions of higher education; Special district governments; Native American tribal governments (Federally recognized).
Closing: December 07, 2026

Landmarks of History and Culture and Summer Institutes (National Endowment for the Humanities)
Info: The National Endowment for the Humanities (NEH) Division of Lifelong Learning is accepting applications for the Landmarks of American History and Culture and Summer Institutes program. The purpose of this program is to support humanities education through professional development for K-12 teachers and higher education faculty members.
Applicants: State governments; county governments; city or township governments; special district governments; Native American tribal governments (Federally recognized); nonprofits

having a 501(c)(3) status with the IRS, other than institutions of higher education; private institutions of higher education; public and state-controlled institutions of higher education
Closing: December 09, 2026

Transformative Research in Special Education (Department of Education – Institute of Education Sciences, National Center for Special Education Research)
Info: Through the Transformative Research in Special Education Grants program, IES seeks to support research and development of transformative solutions to seemingly intractable problems and challenges in special education. Transformative projects enact bold and innovative thinking, involve interdisciplinary collaboration, are inherently risky, and use high-quality research approaches to create high-reward, scalable solutions with the potential to lead to dramatic improvements for students with or at risk for disabilities. In FY 2027, the Transformative Research in Special Education Grants program will focus on Phase 1 grants to research and develop transformative solutions to dramatically improve preservice teacher education systems so they can better attract, train, and retain preK-12 general and special education teachers who are prepared to provide high-quality instruction and substantially improve outcomes for students with or at risk for disabilities.
Applicants: Institutions that have the ability and capacity to conduct scientifically valid research are eligible to apply. Eligible applicants include, but are not limited to, institutions of higher education and non-profit, for-profit, public, or private organizations and entities.
Closing: December 11, 2026

Public Humanities Projects (National Endowment for the Humanities)
Info: The National Endowment for the Humanities (NEH) Division of Lifelong Learning is accepting applications for the Public Humanities Projects program. The purpose of this program is to support projects that bring the ideas and insights of the humanities to life in three areas: (1) exhibitions, (2) historic site interpretations, and (3) public lectures and discussions. For 2027, NEH welcomes applications that promote deeper public understanding of the following topics: Western civilization and America's place in it; great works of literature, history, philosophy, and theology and their relevance to contemporary questions; the 250th anniversary of the American Revolution; civic education; civil discourse; cultural literacy, and the practice of close reading. Public Lectures and Discussion Forums must address one of these interest areas.
Applicants: Private institutions of higher education; City or township governments; Public and State controlled institutions of higher education; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; County governments; State governments; Special district governments; Native American tribal governments (Federally recognized)
Closing: December 16, 2026

National Digital Newspaper Program (National Endowment for the Humanities)
Info: The National Endowment for the Humanities (NEH) Division of Collections and Infrastructure is accepting applications for the National Digital Newspaper Program (NDNP). The purpose of this program is to create a national digital resource of historically significant newspapers published between 1690 and 1963, from all 56 states and U.S. jurisdictions. The Library of Congress (LOC) maintains this freely accessible, searchable online database.
Applicants: Private institutions of higher education; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; County governments; State governments; Native American tribal governments (Federally recognized); Special district governments; Public and State controlled institutions of higher education; City or township governments
Closing: January 13, 2027

Celebrate America! Chairman's Grants in Honor of America's 250th Anniversary (National Endowment for the Humanities)

Info: In honor of the momentous occasion of the 250th anniversary of American Independence, the National Endowment for the Humanities is issuing a call for proposals for *Celebrate America!* a new initiative to recognize the nation's semi quincentennial on July 4, 2026. Through this program, NEH will award 250 challenge grants of up to $25,000 each for projects that focus on the founding of the American nation, key historical figures, and milestones that reflect the exceptional achievements of the United States.
Applicants: To be eligible to apply, your organization must be established in the United States or its jurisdictions as one of the following: a nonprofit organization recognized as tax-exempt under section 501(c)(3) of the Internal Revenue Code; an accredited institution of higher education (public or nonprofit); a state or local government or one of their agencies; a federally recognized Native American Tribal government.
Closing: Applications will be accepted and reviewed on a rolling basis

Collaboratory to Advance Mathematics Education and Learning (CAMEL) for K-12 (U.S. National Science Foundation)

Info: The Collaboratory to Advance Mathematics Education and Learning (CAMEL) for K-12 initiative aims to advance mathematics learning and education through purposeful collaboration that draws on the interdisciplinary Science of Learning (including neuroscience; cognitive, developmental, and social sciences; computer science; machine learning; engineering; and education research), deep experiences in education practice and teaching, and innovations in the use of data science, AI and technology. Through an agreement with philanthropic partners, including the Walton Family Foundation (WFF), CAMEL consists of two phases. Phase I invites proposals for the creation of new research networks to support the generation of high value datasets that aim to advance math learning and education. These research networks must include researchers who study the basic science of learning, education practitioners, and data scientists. The high value dataset may come from either generating a new dataset or by increasing the value of an existing dataset. Phase II, open only to awardees of Phase I, establishes a "collaboratory," which is a socio-technological platform that prioritizes community-building and capacity-building to sustain collaborative efforts to advance math learning and education in K-12. Expanding Participation in STEM, NSF Priorities and Gold Standard Science: NSF prioritizes cutting-edge discovery science and engineering research, advancing technology and innovation, and creating opportunities for all Americans. NSF has established priorities set forth by Congress, the administration and the NSF director to promote NSF's mission. Proposers should review the list of NSF priorities and are encouraged to align their proposals with them, where appropriate. NSF also expects the highest standards of scientific rigor, integrity and adherence to appropriate tenets of Gold Standard Science in proposals, as appropriate for the field of science and research modality.
Applicants: Non-profit, non-academic organizations: Independent museums, observatories, research laboratories, professional societies and similar organizations located in the U.S. that are directly associated with educational or research activities; and Institutions of Higher Education.
Closing: Proposals accepted anytime

NSF STEM K-12 (U.S. National Science Foundation)

Info: The NSF STEM K-12 program in the Division of Research on Learning in Formal and Informal Settings (DRL) in the Directorate for STEM Education (EDU) supports fundamental, applied, and translational research that advances STEM teaching and learning and improves understanding of education across the human lifespan and a range of formal and informal settings.

Applicants: Proposals may only be submitted by the following: -For-profit organizations: U.S.-based commercial organizations, including small businesses, with strong capabilities in scientific or engineering research or education and a passion for innovation. -Non-profit, non-academic organizations: Independent museums, observatories, research laboratories, professional societies and similar organizations located in the U.S. that are directly associated with educational or research activities. -State and Local Governments -Institutions of Higher Education (IHEs): Two- and four-year IHEs (including community colleges) accredited in, and having a campus located in the US, acting on behalf of their faculty members. -Tribal Nations: An American Indian or Alaska Native tribe, band, nation, pueblo, village, or community that the Secretary of the Interior acknowledges as a federally recognized tribe pursuant to the Federally Recognized Indian Tribe List Act of 1994.
Closing: Proposals accepted anytime

Community and Public Safety

Upholding the Rule of Law and Preventing Wrongful Convictions Program (Department of Justice – Bureau of Justice Assistance)

Info: This is a notice of funding opportunity (NOFO) for the BJA FY 2026 Upholding the Rule of Law and Preventing Wrongful Convictions Program. This opportunity strengthens the capacity of wrongful conviction review (WCR) entities and their criminal justice and victims' services partners to more effectively and efficiently identify, assess, and manage post-conviction claims of innocence. Additionally, it aims to enhance public safety by preventing future errors, identifying actual perpetrators of crimes, and delivering justice to victims.
Applicants: Private institutions of higher education; special district governments; county governments; public and state controlled institutions of higher education; nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; state governments; nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; city or township governments; Native American tribal governments (Federally recognized); Native American tribal organizations (other than Federally recognized tribal governments); towns, boroughs, parishes, villages, or other general purpose political subdivisions of a state; states and counties that have in-house post-conviction representation programs that show demonstrable experience and competence in litigating postconviction claims of innocence.
Closing: November 02, 2026

Second Chance Act Youth Reentry Program (Department of Justice – Office of Juvenile Justice Delinquency Prevention)

Info: This is a notice of funding opportunity (NOFO) for the OJJDP FY 2026 Second Chance Act Youth Reentry Program. This opportunity will support states, units of local government, federally recognized Native American Tribal governments, and community-based organizations to provide (1) comprehensive reentry services for moderate- to high-risk youth before, during, and after release from confinement, and (2) support transitional services to assist youth to successfully reenter the community. This program supports collaborations between state agencies, local government, Tribes, and community- and faith-based organizations to address the challenges that reentry and recidivism reduction pose for moderate to high-risk juvenile offenders returning to their communities from juvenile residential or correctional facilities.
Applicants: City or township governments; State governments; Native American tribal governments (Federally recognized); Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; County governments; Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; Units of local governments.

Closing: November 02, 2026

Missing and Unidentified Human Remains Program (Department of Justice – Bureau of Justice Assistance)

Info: This is a notice of funding opportunity (NOFO) for the BJA FY 2026 Missing and Unidentified Human Remains (MUHR) Program. This opportunity supports efforts to improve reporting, transportation, forensic processing, and identification of missing persons (MP) and unidentified human remains (UHR) cases, including those involving migrants as authorized by Public Law 116-277. This program increases public safety by providing resources to locate and identify missing persons and unidentified human remains in the United States.
Applicants: Public and State controlled institutions of higher education; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; County governments; State governments; Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; Special district governments; City or township governments; Other units of local government (towns, boroughs, parishes, villages, or other general purpose political subdivisions of a state); Accredited, publicly funded, CODIS forensic laboratories; Medical examiner offices; Accredited, publicly funded toxicology laboratories; Accredited, publicly funded crime laboratories.
Closing: November 02, 2026

DNA Capacity Enhancement for Backlog Reduction (CEBR) - Competitive Grants Program (Department of Justice – Bureau of Justice Assistance)

Info: This is a notice of funding opportunity (NOFO) for the BJA FY 2026 DNA Capacity Enhancement for Backlog Reduction (CEBR) — Competitive Grants Program. This opportunity will increase capacity of states and units of local government with existing crime laboratories to process DNA samples for entry into the Combined DNA Index System (CODIS). The purpose of the CEBR Competitive Program is to maximize the effective utilization of DNA technology to strengthen evidence-based criminal justice responses. The priorities of the CEBR Competitive Program are (1) to use DNA technology to increase the capacity and/or efficiency of publicly funded forensic DNA laboratories to conduct analysis of DNA samples for entry into CODIS and (2) implementing Rapid DNA in the booking station(s) in eligible jurisdictions. The program is designed to fairly and efficiently prioritize jurisdictions facing operational challenges by considering key performance measures reported by publicly funded forensic DNA laboratories. This program is for Competitive funding only. Eligible agencies may apply for both Competitive and Formula CEBR Funding.
Applicants: State governments; special district governments; public and state-controlled institutions of higher education; county governments; city or township governments; towns, boroughs, parishes, villages, or other general purpose political subdivisions of a state.
Closing: November 03, 2026

Tribal Civil and Criminal Legal Assistance (Department of Justice – Bureau of Justice Assistance)

Info: This is a notice of funding opportunity (NOFO) for the BJA FY 2026 Tribal Civil and Criminal Legal Assistance Program. This opportunity will support legal assistance to eligible tribal members, federally recognized Indian tribes, and tribal justice systems that provide legal aid and indigent defense services to tribal communities located in rural and remote regions throughout the United States where legal services are sparse. This NOFO will also support specialized training and technical assistance (TTA) to grantees for the development, enrichment, and enhancement of tribal courts and justice system operations. This includes tribal and state joint jurisdiction; veterans' clinics and legal assistance for Native American veterans;

Missing Murdered and Indigenous People; Violence Against Women Act; Tribal Law and Order Act; and Special Tribal Criminal Jurisdiction.
Applicants: Non-profit entities, as defined under section 501(c)(3) of title 26, which provide legal assistance services for Indian tribes, members of Indian tribes, or tribal justice systems pursuant to federal poverty guidelines; National or regional membership organizations and associations whose membership consists of judicial system personnel within tribal justice systems.
Closing: November 06, 2026

Emmett Till Unsolved Civil Rights Crimes Act Program (Department of Justice – Bureau of Justice Assistance)
Info: This is a notice of funding opportunity (NOFO) for the BJA FY 2026 Emmett Till Unsolved Civil Rights Crimes Act Program. This opportunity supports state, local, and tribal law enforcement agencies, including prosecution agencies, in investigating and prosecuting criminal offenses involving civil rights that occurred no later than December 31,1979, and resulted in a death.
Applicants: State law enforcement; local Law Enforcement; tribal law enforcement; local prosecutors.
Closing: November 13, 2026

Juvenile Justice System Enhancements (Department of Justice – Office of Juvenile Justice Delinquency Prevention)
Info: This is a notice of funding opportunity (NOFO) for the OJJDP FY 2026 Juvenile Justice System Enhancements program. This opportunity will support states and localities to improve the efficiency and cost-effectiveness of juvenile justice system operations by implementing targeted solutions to high-cost drivers of crime and improving youth outcomes. Applicants will identify specific challenges from across the juvenile justice system and prioritize/reprioritize allocation of scarce resources to support actionable and measurable solutions that prevent and respond to crime, address cost-drivers, and improve strategic and tactical system operations that improve youth outcomes.
Applicants: County governments; State governments.
Closing: November 16, 2026

Family Treatment Court Program (Department of Justice – Office of Juvenile Justice Delinquency Prevention)
Info: This is a notice of funding opportunity (NOFO) for the OJJDP FY 2026 Family Treatment Court Program. This opportunity will support state and local courts, units of local government, and federally recognized Tribal governments to establish new, or enhance existing, family treatment courts to ensure the provision of substance use treatment and other services that improve child, parent, and family outcomes. Family treatment courts serve parents who require treatment for a substance use disorder and who encounter and are engaged with the child welfare system because of child abuse, neglect, or other parenting issues. Family treatment courts provide intensive judicial monitoring and interventions to treat parents' substance use and/or co-occurring mental health disorders.
Applicants: County governments; State governments; City or township governments; Native American tribal governments (Federally recognized).
Closing: November 16, 2026

Expanding Youth Access to Community-Based Treatment (Department of Justice – Office of Juvenile Justice Delinquency Prevention)

Info: This is a notice of funding opportunity (NOFO) for the OJJDP FY 2026 Expanding Youth Access to Community-Based Treatment program. This opportunity will fund community-based treatment programs serving youth with substance use disorders (SUD) and co-occurring mental health and substance use disorders (MHSUD). Selected community-based programs will develop or expand cross-system approaches to improve responses and outcomes for youth with SUDs and MHSUDs who are at risk of or have already been in the juvenile justice system by increasing access to community-based treatment, as appropriate, to address their substance use and mental health needs to prevent reoffending and recidivism.
Applicants: Native American tribal governments (Federally recognized); Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; City or township governments; State governments; County governments; Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education.
Closing: November 16, 2026

Research and Evaluation on Human Trafficking (Department of Justice – National Institute of Justice)
Info: This is a notice of funding opportunity (NOFO) for the NIJ FY 2026 Research and Evaluation on Human Trafficking. This opportunity supports proposals for rigorous research and evaluation projects to better understand, respond to, and reduce Human Trafficking in the United States in three areas: (1) prevention, including justice system and other initiatives to prevent trafficking in the first place or to prevent further harm after it has occurred, (2) evaluation of federal policies that may have the unintended consequence of perpetuating or increasing human trafficking, and (3) applied research and program evaluations that directly support effective services for American victims. This NOFO is released by the National Institute of Justice (NIJ), in collaboration with the Office for Victims of Crime (OVC).
Applicants: Private institutions of higher education; Native American tribal organizations (other than Federally recognized tribal governments); State governments; Special district governments; Independent school districts; Native American tribal governments (Federally recognized); Public housing authorities/Indian housing authorities; City or township governments; For profit organizations other than small businesses; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; County governments; Public and State controlled institutions of higher education; Small businesses.
Closing: November 16, 2026

Strategies to Support Children Exposed to Violence (Department of Justice- Office of Juvenile Justice Delinquency Prevention)
Info: This is a notice of funding opportunity (NOFO) for the OJJDP FY 2026 Strategies to Support Children Exposed to Violence. This opportunity will support the implementation of violent crime reduction strategies focused on violent juvenile offenders and improving communities' ability to help children exposed to violence in their homes, schools, and communities. Through this program the incidence and impact of violence will be reduced by strengthening local efforts to address victimization of children exposed to violence and mitigate the risk of adverse long-term effects and negative outcomes associated with children's exposure to violence.
Applicants: Private institutions of higher education; County governments; City or township governments; Native American tribal governments (Federally recognized); Independent school districts; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Special district governments; Public and State controlled institutions of higher education; State governments; Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; Native American tribal organizations (other than Federally recognized tribal governments); Units of local government.

Closing: November 16, 2026

Crime and Justice Research (Department of Justice – National Institute of Justice)
Info: This is a notice of funding opportunity (NOFO) for the NIJ FY 2026 Crime and Justice Research. This opportunity NOFO calls for applications in two categories: Category 1: Crime and Justice Research: Category 1 will support applications for research on new programs, strategies, and technological solutions to improve workforce effectiveness, enhance operational readiness, and support safety in the adult criminal justice system. Category 2: Assessment of the Community Oriented Policing Services (COPS) De-escalation Training Program: Category 2 will support proposals to study the implementation and impact of the Community Oriented Policing Services (COPS) De-Escalation Training Program.
Applicants: Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; State governments; Independent school districts; Native American tribal organizations (other than Federally recognized tribal governments); Private institutions of higher education; For profit organizations other than small businesses; Native American tribal governments (Federally recognized); City or township governments; Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; Small businesses; Public housing authorities/Indian housing authorities; Special district governments; Public and State controlled institutions of higher education; County governments.
Closing: November 16, 2026

Research and Evaluation on Justice System Responses to Illegal Immigration (Department of Justice – National Institute of Justice)
Info: This is a notice of funding opportunity (NOFO) for the NIJ FY 2026 Research and Evaluation on Justice System Responses to Illegal Immigration. This opportunity supports proposals for rigorous, applied research and evaluations examining the adult criminal justice system (courts, law enforcement, jails, prisons, and community supervision) challenges and responses to illegal immigration and crimes committed by aliens while in the U.S. illegally at the state, local, and tribal levels. This includes, but is not limited to, location and apprehension, court operations, transportation and detention, investigating fraud and other crimes committed by illegal aliens, including creating an accurate profile of their rates of criminal activity, counter gang and criminal activity including drug and human trafficking operations. Criminal justice agencies often develop innovative solutions to local challenges that may provide insight to other jurisdictions. Applicants may propose studies examining single or multiple states and jurisdictions and models of cooperation between federal, state, local and tribal justice systems and other stakeholders. The goal of this NOFO is to identify innovative local strategies, evaluate their effectiveness, and inform practical, data-driven solutions that inform and strengthen the strategies that state, local, and tribal justice systems use to address illegal immigration.
Applicants: Native American tribal governments (Federally recognized); Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; City or township governments; Small businesses; County governments; For profit organizations other than small businesses; Public and State controlled institutions of higher education; Native American tribal organizations (other than Federally recognized tribal governments); Private institutions of higher education; State governments; Special district governments; Other Units of Local Government: For the purposes of this notice of funding opportunity, other units of local government include towns, boroughs, parishes, villages, or other general purpose political subdivisions of a state.
Closing: November 16, 2026

Evaluation of the Effectiveness of the Bureau of Justice Assistance Byrne State Crisis Intervention Program (Department of Justice – National Institute of Justice)

Info: This is a notice of funding opportunity (NOFO) for the NIJ FY 2026 Evaluation of the Effectiveness of the Bureau of Justice Assistance (BJA) Byrne State Crisis Intervention Program (SCIP).1 This opportunity will support research and evaluation to assess the effectiveness of programs funded under FYs 2022-2026 BJA's Byrne SCIP NOFOs. BJA's Byrne SCIP provides funding for the creation or enhancement of state crisis intervention court proceedings and related programs or initiatives, including extreme risk protection order (ERPO) programs, as well as mental health courts, drug courts, and veterans' treatment courts. Such programs or initiatives can include, but are not limited to: 1) Law enforcement crisis interventions; 2) Court-based programming; 3) Referrals to treatment for people in crisis; and 4) ERPO programs. Applicants may apply to assess multiple program areas where applicable. NIJ anticipates making at least one award per topic area for a total of 4 awards. Applicants should clearly state the program area(s) on the title page. This NOFO invites applications proposing a two-phased evaluation strategy to assess Byrne SCIP. The approach includes: Phase I: Evaluability Assessments. Phase II: An Evaluation of the Byrne SCIP's Effectiveness. Applications to this NOFO should include both phases. Applications that do not meet this requirement would not be considered responsive to this funding opportunity.
Applicants: Private institutions of higher education; Native American tribal governments (Federally recognized); City or township governments; Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; Public and State controlled institutions of higher education; Native American tribal organizations (other than Federally recognized tribal governments); Small businesses; Special district governments; For profit organizations other than small businesses; County governments; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; State governments; Other Units of Local Government: For the purposes of this notice of funding opportunity, other units of local government include towns, boroughs, parishes, villages, or other general purpose political subdivisions of a state.
Closing: November 16, 2026

Emergency Planning for Juvenile Justice Facilities (Department of Justice – Office of Juvenile Justice Delinquency Prevention)
Info: This is a notice of funding opportunity (NOFO) for the OJJDP FY 2026 Emergency Planning for Juvenile Justice Residential Facilities program. This opportunity will support the development, improvement, and/or implementation of emergency planning activities for state, Tribal, county, and local juvenile justice residential facilities. Emergency planning activities should prepare facilities to prioritize the safety and well-being of youth and staff, keep families informed, continue operations, and reduce risk to the facility during and after an emergency. The goal of the program is to help facilities improve their ability to respond to and recover from these incidents. For the purposes of this program, emergency is defined as an incident—natural, technological, or nonnatural—that requires a response to protect life and property.
Applicants: Native American tribal governments (Federally recognized); County governments; Special district governments; City or township governments; State governments.
Closing: November 16, 2026

Justice Reinvestment Initiative: Strengthening State and Local Operations to Reduce Crime and Recidivism
Info: This is a notice of funding opportunity (NOFO) for the BJA FY 2026 Justice Reinvestment Initiative: Strengthening State and Local Operations to Reduce Crime and Recidivism. This opportunity will support state, local, and tribal government efforts to reduce wasteful spending and inefficient uses of funds across justice system operations and redirect that funding to target crime and other public safety and/or justice system challenges. Applicants should propose projects that address one or more urgent local justice system challenge. Applicants should use

existing data and information to identify the specific challenges they will focus on and how they will refocus resources on the strategies and populations most likely to reduce crime. Jurisdictions may consider addressing challenges across the judicial system, including those related to law enforcement, prosecution, sentencing, jails and prisons, probation, and parole.
Applicants: State governments; City or township governments; Special district governments; Native American tribal governments (Federally recognized); County governments; Other units of local government: For the purposes of this notice of funding opportunity, other units of local government include towns, boroughs, parishes, villages, or other general purpose political subdivisions of a state.
Closing: November 20, 2026

Research and Evaluation on School Safety (Department of Justice – National Institute of Justice)
Info: This is a notice of funding opportunity (NOFO) for NIJ FY 2026 Research and Evaluation on School Safety. This opportunity will support rigorous research and evaluation projects to fill key gaps regarding K-12 safety, specifically focusing on the development, deployment, and operation of: Anonymous reporting systems for threats of school violence, including mobile telephone applications, hotlines, and internet websites; school threat assessment and intervention teams that include coordination with law enforcement agencies and school personnel This NOFO seeks rigorous outcome/impact evaluations paired with process/implementation evaluations to assess the effectiveness of activities supported by STOP1 School Violence Act (SVA) projects administered by the Bureau of Justice Assistance (BJA) and the Office of Community Oriented Policing Services (COPS Office) School Violence Prevention Program (SVPP) or similar programs from other sources that align with STOP SVA's goals. To develop practical recommendations for K-12 school safety, applicants are strongly encouraged to work closely with educators, school stakeholders, and communities to develop questions, identify solutions, collect data, and interpret findings.
Applicants: Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Special district governments; Private institutions of higher education; Independent school districts; Native American tribal governments (Federally recognized); Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; Small businesses; Public housing authorities/Indian housing authorities; County governments; Public and State controlled institutions of higher education; City or township governments; For profit organizations other than small businesses; State governments; Native American tribal organizations (other than Federally recognized tribal governments).
Closing: November 23, 2026

Research on the Abuse, Neglect, and Exploitation of Elderly Individuals (Department of Justice – National Institute of Justice)
Info: This is a notice of funding opportunity (NOFO) for the NIJ FY 2026 Research on the Abuse, Neglect, and Exploitation of Elderly Individuals. This opportunity seeks to improve knowledge and understanding of relevant issues through science. Under this NOFO, NIJ is seeking proposals to address one or more of the following topic areas: 1. Research examining the role of emerging technologies in fraud and exploitation, including technology-enabled approaches to enhance detection and investigation. 2. Forensic research to inform and strengthen the investigation and prosecution of elder abuse cases. 3. Evaluation of programs that seek to prevent, intervene in, or respond to the abuse, neglect, and financial exploitation of older adults. 4. Research to inform the development of effective education and intervention programs that address financial fraud against older adults. Applications proposing research projects not addressing one of these four areas will not be considered.

Applicants: Private institutions of higher education; Native American tribal governments (Federally recognized); For profit organizations other than small businesses; Public and State controlled institutions of higher education; Special district governments; Small businesses; County governments; Native American tribal organizations (other than Federally recognized tribal governments); Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; City or township governments; Independent school districts; State governments.
Closing: November 30, 2026

Research and Evaluation on Drones as First Responders (Department of Justice – National Institute of Justice)
Info: This is a notice of funding opportunity (NOFO) for the NIJ FY 2026 Research and Evaluation on Drones as First Responders. This opportunity seeks proposals for rigorous evaluations of implementations of drone technology to combat violent crime, immigration enforcement, and other law enforcement activities. The goal of this NOFO is to provide actionable information about police implementation of small drones through a collaboration between law enforcement agencies and researchers. NIJ welcomes research and evaluation of drones as first responders (DFR) capabilities, including evaluation of existing capabilities or pilot programs at police departments already using DFR, as well as implementation of new pilot programs or demonstrations. NIJ expects research entities and law enforcement agencies to collaborate on implementing DFR and evaluating operational performance. Law enforcement agencies participating in evaluations will have the option to retain any DFR technology purchased through the NOFO at the study's conclusion.
Applicants: State governments; Small businesses; Private institutions of higher education; Native American tribal governments (Federally recognized); Independent school districts; Special district governments; For profit organizations other than small businesses; Public and State controlled institutions of higher education; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Public housing authorities/Indian housing authorities; Native American tribal organizations (other than Federally recognized tribal governments); Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; County governments; City or township governments.
Closing: November 30, 2026

Integrity in American Elections Grant Program (Department of Justice – Bureau of Justice Assistance)
Info: This is a notice of funding opportunity (NOFO) for the OJP FY 2026 Integrity in American Elections Grant Program. This opportunity will support state and local prosecutors and other justice professionals to prevent, investigate, and prosecute criminal offenses pertaining to voter roll integrity and voter fraud, including illegal voting and registration crimes. This includes votes by aliens, felons, the deceased, those younger than 18, those who vote more than once, those who vote in the name of another, and other illegal voting and registration crimes.
Applicants: Native American tribal governments (Federally recognized); State governments; County governments; City or township governments; Special district governments; Other Units of Local Government: For the purposes of this NOFO, other units of local government include towns, boroughs, parishes, villages, or other general purpose political subdivisions of a state.
Closing: December 01, 2026

Advancing Global Health (Department of State - Bureau of Global Health Security and Diplomacy)

Info: The Department of State invites eligible applicants to advance the America First Global Health Strategy, which aims to save lives, strengthen health systems, enhance efficiency, foster self-reliance, and ensure U.S. investments benefit American safety, strength, and prosperity. This Annual Program Statement (APS) establishes a supplemental framework through which the Department of State may identify and support projects that complement, extend, and/or fill identified gaps in the implementation of these bilateral MOUs. Through specific Addenda, the Department will signal priorities and needs. This APS provides the standard application instructions for the submission of all Statements of Interest (SOIs) to these specific Addenda. GHSD will collaborate with Embassies and other Department of State Bureaus and Offices to post specific funding opportunities through Addenda to this APS that address health challenges and priorities of importance.
Applicants: Unrestricted; Please see APS instructions for eligibility criteria.
Closing: February 14, 2027

Opportunities for Collaborative Research at the NIH Clinical Center (U01 Clinical Trial Optional) (Department of Health and Human Services - National Institutes of Health)
Info: The goal of this program is to support collaborative translational research projects aligned with NIH efforts to enhance the translation of basic biological discoveries into clinical applications that improve health. It encourages high quality science demonstrating the potential to result in understanding an important disease process or lead to new therapeutic interventions, diagnostics, or prevention strategies within the research interests and priorities of the participating NIH Institutes/Centers (ICs).Specifically, the program seeks to broaden and strengthen translational research collaborations between basic and clinical researchers both within and outside NIH to accelerate and enhance translational science by promoting partnerships between NIH intramural investigators (e.g., those conducting research within the labs and clinics of the NIH) and extramural investigators (e.g., those conducting research in labs outside the NIH), and by providing support for extramural investigators to take advantage of the unique research opportunities available at the NIH Clinical Center by conducting clinical research projects in collaboration with NIH intramural investigators.
Applicants: County governments; State governments; Independent school districts; For profit organizations other than small businesses; Small businesses; Native American tribal organizations (other than Federally recognized tribal governments); Public and State controlled institutions of higher education; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Private institutions of higher education; Special district governments; City or township governments; Native American tribal governments (Federally recognized); Public housing authorities/Indian housing authorities; and Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education.
Closing: March 06, 2027

Title X Family Planning Services Grants (Department of Health and Human Services - Office of the Assistant Secretary for Health)
Info: The Office of Population Affairs (OPA) announces the anticipated availability of funds for Fiscal Year (FY) 2027 grants under the authority of Title X of the Public Health Service Act, Section 1001 (42 U.S.C. §300).This notice solicits applications for projects to provide Title X services throughout the 50 United States, District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the U.S. Virgin Islands, American Samoa, the U.S. Outlaying Islands (Midway, Wake, et al.), the Republic of the Marshall Islands, the Federated State of Micronesia, and the Republic of Palau (hereafter, States). OPA intends to make available approximately up to $257 million for up to 90 grant awards for a period of up to five (5) years. The actual amount available will not be determined until enactment of the FY 2027 federal budget. OPA's Title X Family Planning Program funds "voluntary family planning projects

[that] offer a broad range of acceptable and effective family planning methods and services (including natural family planning methods, infertility services, and services for adolescents)."
Applicants: Native American tribal governments (Federally recognized); Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; State governments; City or township governments; Public and State controlled institutions of higher education; County governments; Special district governments; Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; Private institutions of higher education; Independent school districts; Public housing authorities/Indian housing authorities; Native American tribal organizations (other than Federally recognized tribal governments).
Closing: January 09, 2027

Superfund Hazardous Substance Research and Training Program (Department of Health and Human Services – National Institutes of Health)
Info: The National Institute of Environmental Health Sciences (NIEHS) is announcing the continuation of the Superfund Hazardous Substance Research and Training Program, referred to as Superfund Research Program (SRP) Centers. SRP Center grants will support problem-based, solution-oriented research Centers that consist of multiple, integrated projects representing both the biomedical and environmental science and engineering disciplines; as well as cores tasked with administrative (which includes Center leadership, data management, and training); translational research and engagement; and research support functions. The scope of the SRP Centers is taken directly from the Superfund Amendments and Reauthorization Act of 1986, which limits competition for this program to accredited institutes of higher education. Please see Section III. Eligibility for additional information. In accordance with NIH standard peer-review processes, the application(s) will be peer-reviewed, and only meritorious application(s) will be considered for funding.
Applicants: Private institutions of higher education; Public and State controlled institutions of higher education; Based on 42 USC 9660(a)(3) eligible applicants are limited to accredited institutes of higher education. Eligible applicants are permitted under the law, and encouraged by NIEHS, to subcontract as appropriate with other organizations as necessary to conduct portions of the research. Examples of other organizations may include generators of hazardous wastes; persons involved in the detection, assessment, evaluation, and treatment of hazardous substances; owners and operators of facilities at which hazardous substances are located; and/or State and local governments. Refer to Section III. Eligibility Information in the NOFO for additional information on eligibility. Foreign Organizations/International Collaborations: Non-domestic (non-U.S.) Entities (Foreign Organization) are not eligible to apply. Non-domestic (non-U.S.) components of U.S. Organizations are not eligible to apply. Foreign components, as defined in the NIH Grants Policy Statement, are not allowed.
Closing: September 25, 2028

Implementation Science to Advance HIV Prevention, Treatment, and Care (Department of Health and Human Services – National Institutes of Health)
Info: The purpose of this notice of funding opportunity (NOFO) is to support implementation research on strategies to improve the uptake, implementation, sustainment, scale and/or spread of evidence-based prevention, treatment, and care interventions in communities in the U.S. significantly impacted by HIV. Projects should be large in scale with high potential for research and public health impact. Specifically, large single site studies, multi-site studies, and comparative studies are encouraged as scientifically appropriate.
Applicants: Independent school districts; Native American tribal organizations (other than Federally recognized tribal governments); For profit organizations other than small businesses; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Private institutions of higher education; Special district governments; Small businesses; Native

American tribal governments (Federally recognized); Public housing authorities/Indian housing authorities; State governments; City or township governments; Public and State controlled institutions of higher education; County governments; Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; Indian/Native American Tribal Governments (Other than Federally Recognized); Eligible Agencies of the Federal Government; U.S. Territory or Possession; Faith-based or Community-based Organizations; Regional Organizations; Non-domestic (non-U.S.) Entities (Foreign Institutions).
Closing: June 20, 2029

Program to End Modern Slavery Annual Program Statement (Department of State - Office to Monitor - Combat Trafficking in Persons)
Info: The TIP Office invites applications for the Program to End Modern Slavery (PEMS). PEMS programming establishes a strategic funding framework to develop, test, evaluate, and scale evidence-based anti-trafficking interventions that directly advance U.S. national security, economic competitiveness, and efforts to combat transnational crime.
Applicants: The following organizations are eligible to apply: · Not-for-profit organizations, including think tanks and civil society/non-governmental organizations · Public and private educational institutions · For-profit organizations · Public International Organizations · U.S. government agencies Applications submitted by for-profit entities may be subject to additional review following the panel selection process. Additionally, the Department of State prohibits profit to for-profit or commercial organizations under its assistance awards. Profit is defined as any amount in excess of allowable direct and indirect costs. The allowability of costs incurred by commercial organizations is determined in accordance with the provisions of the Federal Acquisition Regulation (FAR) at 48 CFR 30, Cost Accounting Standards Administration, and 48 CFR 31 Contract Cost Principles and Procedures. While foreign governments are not eligible to apply, governments may be beneficiaries of programs pro.
Closing: undefined

TIP Office International Programs to Combat Human Trafficking Annual Program Statement (Department of State - Office to Monitor-Combat Trafficking in Persons)
Info: The TIP Office invites applications for projects that aim to combat human trafficking following the legislative framework laid out in the Trafficking Victims Protection Act, and subsequent reauthorizations, to prosecute traffickers, protect victims, and prevent trafficking. Projects should address human trafficking challenges, respond to the priorities articulated in the National Security Strategy, executive orders, the FY 2026-2030 State Department Agency Strategy, and country-specific recommendations in the annual Trafficking in Persons Report, and advance America First Foreign Policy priorities.
Applicants: The following organizations are eligible to apply: · Not-for-profit organizations, including think tanks and civil society/non-governmental organizations · Public and private educational institutions · For-profit organizations · Public International Organizations · U.S. government agencies Applications submitted by for-profit entities may be subject to additional review following the panel selection process. Additionally, the Department of State prohibits profit to for-profit or commercial organizations under its assistance awards. Profit is defined as any amount in excess of allowable direct and indirect costs. The allowability of costs incurred by commercial organizations is determined in accordance with the provisions of the Federal Acquisition Regulation (FAR) at 48 CFR 30, Cost Accounting Standards Administration, and 48 CFR 31 Contract Cost Principles and Procedures.

Conservation, Environment & Natural Disasters

DARRP Restoration Implementation Grants (Department of Commerce – NOAA)

Info: The principal objective of the Damage Assessment, Remediation and Restoration Program (DARRP) Restoration Implementation Grants is for NOAA to collaborate with non-federal partners to implement marine and coastal habitat restoration and conservation in order to accomplish common goals related to oil spills, hazardous substance releases, and other natural resource damages. Successful applicants will support and implement restoration activities authorized under the Oil Pollution Act, Comprehensive Environmental Response, Compensation, and Liability Act, Clean Water Act, National Marine Sanctuaries Act, and other federal agencies' authorities related to oil spills, hazardous substance releases, and natural resource damages, such as the RESTORE Act. Notice of Funding Opportunity (NOFO) will be for those capable of implementing restoration and conservation activities across a wide geographic scale. NOAA NOFO Page 2 of 26 Restoration activities may include actions that rebuild productive and sustainable fisheries; contribute to the recovery and conservation of threatened and endangered species; and improve economic vitality, including local employment. Recipients will be implementing activities identified in consent decrees or natural resource damage assessment and restoration plans and may be developing or soliciting projects to meet restoration goals. This may include recipients reviewing restoration plans and: collaborating with the trustee to select activities to be contracted or sub-awarded by the recipient; collaborating with the trustee to select projects for which the recipient has direct implementation responsibility; competition management to sub- award projects; and implementing pre- and post-restoration project evaluation and monitoring. Projects may also include restoration planning and technique development activities that further the mutual interests of DARRP and of funding recipient partners, such as environmental compliance analyses or restoration planning for potential, future incidents.

Applicants: Eligible applicants are institutions of higher education, non-profits, and commercial (for-profit) organizations. Applications from federal, state, or tribal governments will not be considered, due to their potential role as trustee council members. Applications from local governments will only be considered if they identify potential large scale restoration opportunities based on current or anticipated restoration plans. Applications from individuals or employees of federal agencies will not be considered. Non-eligible organizations are encouraged to work with those that are eligible to apply.

Closing: November 18, 2026

Easement Restoration and Stewardship (Department of Agriculture – Natural Resources Conservation Service)

Info: The opportunities associated with this NOFO are for lands protected through the Wetland Reserve Easements (WRE) component of the Agricultural Conservation Easement Program (ACEP) and the Floodplain Easement (FPE) component of the Emergency Watershed Protection Program (EWPP). The types of work available through this opportunity fall into three primary categories: 1) restoration of wetland and floodplain easements; 2) stewardship of wetland and floodplain easements, and 3) onsite and offsite assessment of easement conditions.

Applicants: Private institutions of higher education; City or township governments; Native American tribal organizations (other than Federally recognized tribal governments); Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Public and State controlled institutions of higher education; Special district governments; For profit organizations other than small businesses; Small businesses; Native American tribal governments (Federally recognized); Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; State governments; County governments

Closing: November 19, 2026

John H. Prescott Marine Mammal Rescue and Response Grant Program (Department of the Interior – Fish and Wildlife Service)

Info: The John H. Prescott Marine Mammal Rescue and Response Grant Program (Prescott program) provides financial assistance to eligible marine mammal stranding participants and stranding network collaborators to provide (A) the recovery, care, or treatment of sick, injured, or entangled marine mammals; (B) responses to marine mammal stranding events that require emergency assistance; (C) the collection of data and samples from living or dead stranded marine mammals for scientific research or assessments regarding marine mammal health; (D) facility operating costs that are directly related to activities described in (A), (B), or (C); and (E) development of stranding network capacity, including training for emergency response, where facilities do not exist or are sparse. Successful applications will be those aimed at helping support these actions. The U.S. Fish and Wildlife Service's (FWS) Prescott Grant Program will provide support for response to the stranding of wild populations of species under the Department of the Interior's management authority per section 3(12) of the Marine Mammal Protection Act (MMPA). Under this Funding Opportunity, FWS will recommend projects for funding based on how well and to what extent they support the species-specific priority activities, which are listed below under Species-Specific Funding Priorities. For the purposes of this program, priority is to be given to applications focusing on marine mammal strandings.
Applicants: Eligible applicants must be a U.S. eligible marine mammal stranding participant or stranding network collaborator that is not an employee of the Department of the Interior or Department of Commerce. The term "eligible marine mammal stranding participant" means a person who is authorized by the FWS under MMPA section 104(c) for response to injured or distressed marine mammals or for scientific research regarding marine mammal health, or under MMPA section 112(c) to take marine mammals as described in MMPA section 109(h) in response to a stranding. Eligible entities also include Federal, state, or local government employees operating in the course of their official duties as indicated under MMPA section 109(h). Applicants may reach out to the FWS for technical assistance to clarify and/or document applicability of the exemption under MMPA section 109(h).
Closing: November 30, 2026

John H. Prescott Marine Mammal Rescue Assistance Grant (Department of Commerce – NOAA)

Info: NOAA/National Marine Fisheries Service's (NMFS) Marine Mammal Health and Stranding Response Program (MMHSRP) is authorized under the Marine Mammal Protection Act (MMPA) to facilitate collecting and disseminating reference data on stranded marine mammals (cetaceans and pinnipeds, excluding walrus) and the health trends of marine mammal populations in the wild. The John H. Prescott Marine Mammal Rescue Assistance Grant Program is administered by NMFS to provide federal assistance to eligible members of the U.S. National Marine Mammal Stranding Network, the U.S. National Entanglement Response Network, and their collaborators to provide for: (A) the recovery, care, or treatment of sick, injured, or entangled marine mammals; (B) responses to marine mammal stranding events that require emergency assistance; (C) the collection of data and samples from living or dead stranded marine mammals for scientific research or assessments regarding marine mammal health; (D) facility operating costs that are directly related to activities described in (A), (B), or (C); and (E) development of stranding network capacity, including training for emergency response, where facilities do not exist or are sparse. This document describes how to submit proposals for funding under this competition and how NMFS will review and determine which proposals are selected for funding.
Applicants: State governments; county governments; city or township governments; special district governments; Native American tribal governments (Federally recognized), Native American tribal organizations (other than Federally recognized tribal governments); nonprofits

that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; private institutions of higher education; public and state controlled institutions of higher education; for profit organizations other than small businesses; small businesses; individuals. All applicants must submit a Prescott Letter of Eligibility with the application in order to be considered for an award. The Prescott Letter of Eligibility states that you and/or your organization are either a Stranding or Entanglement Response Network participant in good standing or collaborating with a Stranding or Entanglement Response Network member. New Applicants: The Letter of Eligibility must state that you are a new applicant who has never had a Prescott application reviewed during the technical review process of a previous Prescott competition.
Closing: December 01, 2026

SEFSC Bluefin Tuna Research Program (Department of Commerce – NOAA)
Info: The objective of the program is to provide a basis for advancing science-based fisheries management for Atlantic bluefin tuna. Such advancement will depend upon improvements in understanding of the fisheries, total abundance, and biology of bluefin tuna, especially regarding the effects of mixing and movement between the eastern and western Atlantic populations. Contracting Parties to the International Commission for the Conservation of Atlantic Tunas (ICCAT), of which the US is one, and other partners have embarked upon a multi-year research program on bluefin tuna as a step toward improving ICCAT's science-based management of Bluefin fisheries. Research sponsored under this funding opportunity represents a contribution to this partnership. Proposals that demonstrate collaborations with the ICCAT Atlantic Bluefin Tuna Research Program and other ICCAT partners are strongly encouraged.
Applicants: State governments; county governments; city or township governments; Native American tribal governments (Federally recognized), Native American tribal organizations (other than Federally recognized tribal governments); special district governments; nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; private institutions of higher education; public and state controlled institutions of higher education; for profit organizations other than small businesses; small businesses; individuals.
Closing: December 31, 2026

Solid Waste Management Grant Program (Department of Agriculture – Rural Utilities Service)
Info: Funds may be used to: (a) Provide technical assistance and/or training to reduce the solid waste stream through reduction, recycling, and reuse. (b) Provide training to enhance operator skills in maintaining and operating active landfills. (c) Provide technical assistance and/or training for operators of landfills which are closed or will be closed in the near future with the development/implementation of closure plans, future land use plans, safety and maintenance planning, and closure scheduling within permit requirements. (d) Evaluate current landfill conditions to determine the threats to water resources. (e) Pay the expenses associated with providing the technical assistance and/or training authorized in paragraphs (a) through (d) of this section.
Applicants: An organization is eligible to receive a SWM grant if it: (1) is a private, non-profit organization that has tax-exempt status from the U.S. Internal Revenue Service (IRS). A nonprofit organization is defined as any corporation, trust, association, cooperative, or other organization that: (a) Is operated primarily for scientific, education, service, charitable, or similar purposes in the public interest. (b) Is not organized primarily for profit. (c) Uses its net proceeds to maintain, improve, and/or expand its operations. (2) Public bodies. (3) Federally acknowledged or State-recognized Native American tribe or group. (4) Academic institutions.

Private businesses, Federal agencies, and individuals are ineligible for these grants. Applicants must also have the proven ability; background; experience, as evidenced by the organization's satisfactory completion of project(s) similar to those proposed; legal authority; and actual capacity to provide technical assistance and/or training on a regional basis to associations as provided in § 1775.63. To meet the requirement of actual capacity, an applicant must either: (1) Have the necessary resources to provide technical assistance and/or training to associations in rural areas through its staff, or (2) Be assisted by an affiliate or member organization which has such background and experience and which agrees, in writing, that it will provide the assistance, or (3) Contract with a nonaffiliated organization for not more than 49 percent of the grant to provide the proposed assistance.
Closing: December 31, 2026

Technical Assistance and Training Grant Program (Department of Agriculture – Rural Utilities Service)
Info: Funds may be used to pay expenses associated with providing technical assistance and/or training (TAT) to: Identify and evaluate solutions to water problems relating to source, storage, treatment, or distribution; identify and evaluate solutions to waste problems relating to collection, treatment, or disposal: assist applicants, that have filed a pre-application with RUS, in the preparation of water and/or waste loan and/or grant applications; and/or provide technical assistance and/or training to water/wastewater system personnel that will improve the management, operation and maintenance of water and waste disposal facilities. Grant funds may not be used to duplicate current services, such as those performed by an association’s consultant in developing a project; fund political or lobbying activities; pay for capital assets; purchase real estate or vehicles; improve or renovate office space, or repair and maintain privately owned property; pay the costs for construction, improvement, rehabilitation, modification or operation and maintenance of water, wastewater, and solid waste disposal facilities; and pay costs incurred prior to effective date of grant.
Applicants: Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education.
Closing: December 31, 2026

National Bycatch Reduction Engineering Program (Department of Commerce – NOAA)
Info: This grant program provides competitive grants to non-Federal researchers working to benefit U.S. fishermen and fisheries, including aquaculture, through the development of improved fishing practices and innovative gear technologies. The Magnuson-Stevens Fishery Conservation and Management Act, as amended (MSA), 16 U.S.C. 1865, requires that NOAA’s conservation and management measures minimize bycatch to the extent practicable and established the Bycatch Reduction Engineering Program (BREP) to support the development of technological devices and other conservation engineering changes to minimize bycatch and reduce post-release mortality of non-target species in our nation’s fisheries. Bycatch reduction is a priority for the National Marine Fisheries Service (NMFS), as outlined in the NMFS National Bycatch Reduction Strategy (https://www.fisheries.noaa.gov/national/bycatch/national-bycatchreduction-strategy). Fisheries bycatch can contribute to overfishing, population declines for threatened and endangered species, and can result in commercial fishery closures. This Program seeks to support the development and testing of fishing gears and approaches that can be applied in commercial and recreational fisheries to reduce bycatch and post-release mortality and address the MSA requirements to minimize bycatch and habitat impacts.
Applicants: For profit organizations other than small businesses; Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; Native American tribal governments (Federally recognized); Small businesses; Native American tribal organizations (other than Federally recognized tribal governments); Individuals; Private institutions of higher

education; Special district governments; City or township governments; County governments; State governments; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Public and State controlled institutions of higher education; Eligible applicants are individuals, institutions of higher education, other nonprofits, for-profit organizations, and state, local, U.S. territorial, Alaska Native, and Indian tribal governments. Federal agencies or instrumentalities are not eligible to receive Federal assistance under this notice.
Closing: January 22, 2027

Diesel Emissions Reduction Act National Program (Environmental Protection Agency)
Info: This Notice of Funding Opportunity (NOFO) announces the availability of funds under the Diesel Emissions Reduction Act (DERA) Program and solicits applications from eligible entities to incentivize and accelerate the upgrade or retirement of the nation's legacy diesel engine fleet. Eligible activities include the retrofit or replacement of existing diesel engines, vehicles, and equipment with the U.S. Environmental Protection Agency (EPA) and California Air Resources Board (CARB) certified or verified technologies. There are several ways DERA recipients may implement projects and fund project partners, depending on the roles and responsibilities of each. If the applicant is the owner of the target vehicles, the applicant may directly implement the project. If the applicant is partnering with diesel fleet owners, the applicant may award subawards or participant support costs (e.g., rebates). Please refer to Section 9.B. for detailed guidance on funding partnerships.
Applicants: State governments; special district governments; county governments; city or township governments; tribal agencies; port authorities; school districts; municipality governments; metropolitan planning organizations (MPOs); non-profit organizations or institutions that represent or provide pollution reduction/educational services to people or organizations that own or operate diesel fleets or have, as their principal purpose, the promotion of transportation or air quality. For more information, see the full Notice of Funding Opportunity (NOFO).
Closing: January 22, 2027

Flood Mitigation Assistance (Department of Homeland Security – FEMA)
Info: The Flood Mitigation Assistance (FMA) grant program provides federal funds to states, U.S. territories, federally recognized tribal governments, and local governments. The goal is to reduce or eliminate the risk of repetitive flood damage to buildings and structures insured by the National Flood Insurance Program (NFIP) in participating communities. FMA funds a variety of flood mitigation activities to lower flood risk to policyholders and reduce the NFIP's financial exposure.
Applicants: State governments; Native American tribal organizations (other than Federally recognized tribal governments); County governments; City or township governments; Native American tribal governments (Federally recognized); U.S. Territories; District of Columbia. Local governments must apply through their state or territory.
Closing: February 26, 2027

National Fish Passage Program (Department of the Interior - Fish and Wildlife Service)
Info: The National Fish Passage Program (NFPP) provides technical and financial assistance to partners to remove instream barriers and restore aquatic connectivity, improve community safety, and support local economies. Fish passage projects benefit communities by reducing flood risk, improving recreational opportunities, and improving roads while supporting native fish populations and aquatic ecosystems. NFPP project examples include obsolete and dangerous infrastructure removals, culvert replacements, floodplain restoration, and the installation of fishways. It is estimated that for every $1 million invested by the program, $1.5 million in value is added to the economy. The program is delivered through U.S. Fish and Wildlife Service

(Service) field offices nationwide. Local Service staff work with partners to identify and implement projects. Projects are based on sound science, advance the Service mission, and promote aquatic connectivity. Contact a regional NFPP Coordinator in your area for information about program priorities and the application process. The Commerce, Justice, Science; Energy and Water Development; and Interior and Environment Appropriations Act, 2026, allocated $15 million for the National Fish Passage Program, of which $5 million is designated for implementing the Fisheries Restoration and Irrigation Mitigation Act (FRIMA) (Public Law 106-502) of 2000.
Applicants: Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility;" The program seeks and develops projects collaboratively with partners, including but not limited to: State and local agencies, Tribes, non-governmental organizations, other Federal agencies, and private landowners. Additional requirements and geographic restrictions apply to FRIMA funded projects. See website for more information.
Closing: April 30, 2027

Title XVI Water Reclamation and Reuse Projects (Department of the Interior - Bureau of Reclamation)
Info: Through WaterSMART, the Bureau of Reclamation (Reclamation) leverages Federal and non- Federal funding to work cooperatively with States, Tribes, and other entities as they plan for and implement actions to increase water supply and hydropower reliability. The WaterSMART Program demonstrably advances Trump administration priorities, such as those identified in Presidential Executive Order 14154 (January 20, 2025): Unleashing American Energy (E.O. 14154) and Secretarial Order 3418, and aligns with other priorities and requirements, such as those identified in Presidential Executive Order 14332 (August 7, 2025): Improving Oversight in Federal Grantmaking (E.O. 14332). The WaterSMART Title XVI Water Reclamation and Reuse Projects NOFO invites eligible applicants to submit proposals for the planning, design, and/or construction of water reclamation and reuse projects. Title XVI projects develop and supplement urban and irrigation water supplies through water reuse, which provides growing communities with new sources of clean water, increases water management flexibility during times of shortage, and makes the water supply more reliable.
Applicants: Applicants eligible to receive an award under this funding opportunity are described below. Applicants eligible to receive funding under this NOFO include state, regional or local authorities, such as: States, Tribes, municipalities, irrigation districts, and water districts, or wastewater districts Other organizations with water or power delivery authority. All applicants must be located in one of the following States or territories: Arizona, California, Colorado, Hawaii, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming, American Samoa, Guam, the Northern Mariana Islands, or the Virgin Islands. Category A Applicants: Sponsors of any one of the 53 Title XVI Projects specifically authorized by the Title XVI statute; provided that the Title XVI Project has not reached its Federal funding ceiling as specified in the Title XVI statute.
Closing: August 26, 2027

WaterSMART: Desalination Construction Projects (Department of the Interior - Bureau of Reclamation)
Info: Through WaterSMART, the Bureau of Reclamation (Reclamation) leverages Federal and non-Federal funding to work cooperatively with States, Tribes, and other entities as they plan for and implement actions to increase water supply and hydropower reliability. The WaterSMART Program demonstrably advances Trump administration priorities, such as those identified in Presidential Executive Order 14154 (January 20, 2025): Unleashing American Energy (E.O.14154) and Secretarial Order 3418, and aligns with other priorities and requirements, such

as those identified in Presidential Executive Order 14332 (August 7, 2025): Improving Oversight in Federal Grantmaking (E.O. 14332). The WaterSMART: Desalination Construction Projects NOFO invites eligible applicants to submit proposals for the planning, design, and/or construction of facilities to desalinate seawater or brackish surface water or groundwater. By providing growing communities with new sources of local water supply, desalination projects diversify the water supply portfolio, increase water management flexibility during times of shortage, and make the water supply more reliable.
Applicants: Applicants eligible to receive funding under this NOFO include States, departments of a State, subdivisions of a State, or public agencies organized pursuant to a State law, such as: States, Tribes, municipalities, irrigation districts, and water districts, or wastewater districts. All applicants must be located in one of the following States: Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming. Ineligible Applicants - Those not eligible include, but are not limited to, the following entities: Federal Governmental entities, Foreign entities, Individuals, and Institutes of higher education.
Closing: August 26, 2027

WaterSMART Enhancing Water Resources Projects (Department of the Interior - Bureau of Reclamation)
Info: The objective of the WaterSMART Enhancing Water Resources Projects funding opportunity is to invite eligible entities to apply for funding to implement projects per the authorizing language referenced above that benefit water resource management for multiple uses, including water conservation and efficiency projects, water infrastructure improvements, and river and watershed restoration. Projects that balance numerous community interests (agriculture, recreation, fisheries, power, etc.), were developed collaboratively, and provide significant watershed benefits will be prioritized under this funding opportunity. This program demonstrably advances Trump administration priorities, such as those identified in Presidential Executive Order 14154 (January 20, 2025): Unleashing American Energy (E.O. 14154) and Secretarial Order 3418, and aligns with other priorities and requirements, such as those identified in Presidential Executive Order 14332 (August 7, 2025): Improving Oversight in Federal Grantmaking (E.O. 14332).
Applicants: Applicants eligible to receive an award under this funding opportunity are described below. Category A Applicants States, Tribes, irrigation districts, and water districts; State, regional, or local authorities, the members of which include one or more organizations with water or power delivery authority; and Other organizations with water or power delivery authority. Category A applicants must be located in the Western United States or Territories as identified in the Reclamation Act of June 17, 1902, as amended and supplemented; specifically: Alaska, Arizona, California, Colorado, Hawaii, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming, American Samoa, Guam, the Northern Mariana Islands, the U.S. Virgin Islands and Puerto Rico. Category B Applicants: Nonprofit conservation organizations that are acting in partnership with, and with the agreement of an entity described in Category A. All Category B applicants must be located in the United States, or the specific Territories identified above under Category A Applicants. Applicants applying under this category should include a letter of support or other documentation demonstrating that they are acting in partnership with and with the agreement of the Category A entity. Reclamation may request additional information to verify that the applicant meets this requirement. Category C Applicants: Watershed groups as defined in the Cooperative Watershed Management Act, Section 6001(6). All Category C applicants must be located in the United States, or the specific Territories identified above under Category A Applicants. To be eligible, the watershed group must: Be a grassroots, non-regulatory entity that addresses water availability and quality issues within the relevant watershed; Capable of

promoting the sustainable use of water resources in the watershed; Make decisions on a consensus basis; and Represent a diverse group of stakeholders representing different water use sectors, including hydroelectric producers; livestock grazing; timber production; land development; recreation or tourism; irrigated agriculture; the environment; municipal water supplies; private property owners; Federal, state and local governments; Tribes; and disadvantaged communities. Applications submitted by watershed groups will be ranked separately from all other applications. A watershed group is eligible to apply for 50-percent cost-shared funding without a Category A partner but must have a Category A partner to be eligible for 75-percent Federal funding. Watershed groups requesting 75-percent Federal funding should include a letter of support or other documentation demonstrating that they are acting in partnership with and with the agreement of the Category A entity. Reclamation may request additional information regarding whether an applicant meets the definition of a watershed group during the application review process. Ineligible Applicants. Those not eligible to apply to include, but are not limited to, the following: Federal Governmental entities Individuals Institutes of higher education.
Closing: September 08, 2027

WaterSMART Cooperative Watershed Management Program (Department of the Interior - Bureau of Reclamation)
Info: The WaterSMART Cooperative Watershed Management Program funding opportunity invites eligible entities to apply for funding to develop local solutions to address their water management needs. This opportunity provides funding for watershed group development, restoration planning, and watershed management project planning and design. By providing this funding, Reclamation promotes water reliability and cooperation between stakeholders to reduce conflict, facilitate solutions to complex water issues, and stretch limited water supplies. The WaterSMART Cooperative Watershed Management Program demonstrably advances Trump administration priorities, such as those identified in Presidential Executive Order 14154 (January 20, 2025): Unleashing American Energy (E.O. 14154) and Secretarial Order 3418, and aligns with other priorities and requirements, such as those identified in Presidential Executive Order 14332 (August 7, 2025): Improving Oversight in Federal Grantmaking (E.O. 14332).
Applicants: Eligible Applicants To be eligible under this funding opportunity, you must be either an existing watershed group or sponsoring the establishment of a new watershed group as defined in the Cooperative Watershed Management Act (see definition below) that is located in one of the following states or territories: Alaska, Arizona, California, Colorado, Hawaii, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming, American Samoa, Guam, the Northern Mariana Islands, the Virgin Islands, and Puerto Rico. As defined in Section 6002 of the Cooperative Watershed Management Act (see "Legislative Authority" below for full citation), a "watershed group," is a grassroot, non-regulatory entity that addresses water availability and quality issues within the watershed and is capable of promoting the sustainable use of water resources. A watershed group makes decisions on a consensus basis, and represents a diverse group of stakeholders, such as hydroelectric producers, livestock grazing, timber production, land development, recreation or tourism, irrigated agriculture, the environment, municipal water supplies, private property owners, Federal, state and local governments, and Tribes. New Watershed Groups: You must be a state, Tribe, local or special district (e.g., irrigation, water district, water conservation district), local governmental entity, interstate organization, a non-profit organization, or an institute of higher education sponsoring a watershed group located in a state or territory identified above. In addition, you must meet all the following requirements: Be sponsoring the development of a new watershed group; Be able to significantly affect or be affected by the quality or quantity of water in the watershed; and Be capable of promoting the sustainable use of water resources. Existing Watershed Groups: Your watershed group must:

Meet the definition of a watershed group as described under the Cooperative Watershed Management Act, Be located in a state or territory identified above; and Be legally incorporated as a non-profit organization. A watershed group member or fiscal agent may apply on behalf of the watershed group if they are a state, tribe, local or special district (e.g., irrigation, water district, water conservation district), local governmental entity, interstate organization, or a non-profit organization. Applicant Category Guidance In general, you should apply as a New Watershed Group if your group is just getting started, has completed little or no watershed restoration planning, and requires more substantial support for building the capacity of the watershed group and completing outreach to stakeholders. If your group has been active in the watershed for several years and has previously conducted some watershed planning, you should apply as an Existing Watershed Group, even if your group is not incorporated as a legal entity. If you have previously received funding through a CWMP grant, you should apply as an Existing Watershed Group and explain how your new project differs from and builds on your past Phase I project(s). Although New and Existing Watershed Groups will be scored using the same evaluation criteria (see Section E.1. Evaluation Criteria), they will be ranked separately to ensure fairness. During the merit review of the application, Reclamation may change your applicant category (for example, from an existing watershed group to a new watershed group), if appropriate. Ineligible Applicants: Those not eligible to apply include, but are not limited to, the following: Federal Governmental entities Individuals.
Closing: February 15, 2028

Alaska Marine Education and Training Mini-Grant Program (Department of Commerce – NOAA)
Info: This announcement supports Executive Order 14276, Restoring America's Seafood Competitiveness, by soliciting projects that support: workforce development for marine-related professions in marine science, aquaculture/mariculture, and maritime operations; enhancing seafood safety and management through training in seafood best practices, marketing, and fishery management; technological innovation in fishing practices; outreach and education for consumers on quality and sustainability of wild caught fish or products farmed through aquaculture/mariculture; enhanced regionally-specific management of fishery resources based on local knowledge; and strengthening the seafood supply chain through partnerships with industry, researchers, and community organizations to build relationships that increase the sustainability and competitiveness of the marine community in Alaska. Proposed projects must be conducted in Alaska.
Applicants: Small businesses; Individuals; Private institutions of higher education; Special district governments; Native American tribal organizations (other than Federally recognized tribal governments); State governments; City or township governments; Native American tribal governments (Federally recognized); County governments; Public and State controlled institutions of higher education; For profit organizations other than small businesses; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education.
Closing: May 01, 2028

Flood Mitigation Assistance Swift Current (Department of Homeland Security - FEMA)
Info: FMA Swift Current aims to better align the delivery of FMA flood mitigation funding to the disaster survivor experience. The FMA grant program makes federal funds available to states, U.S. territories, federally recognized Indian/Native American Tribal Governments, and local governments to reduce or eliminate the risk of repetitive flood damage to buildings and structures insured under the National Flood Insurance Program (NFIP), and within NFIP-participating communities. FMA funds a variety of flood mitigation activities that are designed to reduce flood risk to NFIP policyholders in an effort to reduce the NFIP's financial exposure.

Applicants: Native American tribal governments (Federally recognized); State governments; Local governments must apply through their State or Territory.
Closing: January 31, 2028

FY 2027 – 2029 BAA (Department of Commerce – NOAA National Marine Fisheries Service)

Info: This Broad Agency Announcement is a mechanism to encourage research, education, outreach, innovative projects, or sponsorships that are not addressed through NOAA's competitive discretionary programs. This announcement is not soliciting goods or services for the direct benefit of NOAA. Funding for activities described in this notice is contingent upon the availability of appropriations in the fiscal years applicable to the application. Applicants are hereby given notice that funds have not yet been appropriated for any activities described in this notice. Publication of this announcement does not oblige NOAA to review an application beyond an initial administrative review, or to award any specific project, or to obligate any available funds. CESU projects fund applied environmental and cultural resource research, technical assistance, and education to support effective stewardship and decision-making for public lands and trust resources.
Applicants: City or township governments; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Private institutions of higher education; Native American tribal governments (Federally recognized); Small businesses; County governments; For profit organizations other than small businesses; Public and State controlled institutions of higher education; State governments.
Closing: September 30, 2028

Energy

A.S.P.E.C.T: Accelerating Scale-up and Pre-piloting of Emerging Chemical Technologies (Department of Energy - Golden Field Office)

Info: DOE CMEI is dedicated to securing America's energy future by reinforcing domestic critical mineral supply chains, driving next-generation energy technology and manufacturing research, and promoting affordable, consumer-friendly solutions. CMEI's AFFO is issuing this ASPECT NOFO, DE-FOA-0003647, to support research, development, and pre-pilot testing of innovative technologies that produce chemicals from alternative and waste feedstocks, mobilizing America's abundant alternative feedstocks resources. The goal of this Notice of Funding Opportunity (NOFO) is to advance promising chemical technologies that utilize alternative feedstocks through multiple levels of maturity and, in some cases, to pre-pilot scale. To accomplish this, the NOFO is divided into two topic areas, each divided into two subtopic areas designed to provide different on ramps for technologies at different stages of development. Topic Area 1 supports the progression of technologies in the R&D phase. Subtopic Area 1a supports advancing early-stage research to bench scale. Subtopic Area 1b is intended to move projects closer to pre-pilot scale, to a point where critical unit operations must be further developed and demonstrated. Topic Area 2 provides an on ramp for technologies ready to move from R&D to full pre-pilot scale and operations. Projects applying to Topic Area 2 should aim to advance their technology to design, construct, and operate pre-pilot scale facilities. Both subtopic areas have the same goal—to move technologies into integrated pre-pilot systems and operate them—but allow for two different points of entry. Subtopic Area 2a targets preliminary pre-pilot scale testing of critical unit operations before engineering and design can commence for the entire system while Subtopic Area 2b projects will involve technologies that are ready for design and construction of an integrated pre-pilot facility. Please see the full NOFO document at eere-exchange.energy.gov.

Applicants: State governments; County governments; City or township governments; Special district governments; Native American tribal governments (Federally recognized), Native American tribal organizations (other than Federally recognized tribal governments); Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Public and State controlled institutions of higher education; Private institutions of higher education; Independent school districts; For profit organizations other than small businesses; Small businesses; Public housing authorities/Indian housing authorities; Individuals.
Closing: December 01, 2026

Notice of Intent to Issue NOFO: Leveraging Domestic Infrastructure and Resources to Unleash Alternative Chemicals, Fuels and Feedstocks (Department of Energy – Golden Field Office)
Info: CMEI intends to issue, on behalf of AFFO, a NOFO titled, “Leveraging Domestic Infrastructure and Resources to Unleash Alternative Chemicals, Fuels, and Feedstocks”. This NOFO will seek applications for financial assistance awards that would support AFFO’s vision to push the frontiers of science and engineering, advance energy addition, and unleash American energy innovation. The purpose of the potential NOFO is to solicit innovative technologies that harness existing domestic biomass and pipeline resources to expand energy production and distribution. The NOFO will advance multiple alternative fuels and feedstock technology areas to maximize the benefits of these existing resources: the production of liquid intermediate products made from biomass, that are chemically, thermally, and physically stable, and that could be sold as commodities for various end applications, including for further upgrading to renewable fuels and chemicals; production of commodity chemicals and fuels at market prices from alternative feedstocks, leveraging existing refinery assets; and establishing pilot sites for blended hydrogen-natural gas that closely simulate actual gas distribution networks, to improve reliability, scalability, suitability, performance, and durability. This NOI is for informational purposes only; we are not requesting comments or applications at this time.
Applicants: See the full NOI for more information.
Closing: April 26, 2027

Fentanyl, Opioids & Substance Use Disorder (SUD) Recovery

Comprehensive Opioid, Stimulant, and Substance Use Program Training and Technical Assistance (Department of Justice - Bureau of Justice Assistance)
Info: This is a notice of funding opportunity (NOFO) for the Comprehensive Opioid Stimulant and Substance Use Program (COSSUP) Training and Technical Assistance (TTA). This opportunity will provide training and technical assistance to BJA COSSUP grantees to address technical operational challenges to improve responses to overdose deaths, illicit opioids, stimulants, and other substances.
Applicants: Private institutions of higher education; small businesses; nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; public and state controlled institutions of higher education; nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; for profit organizations other than small businesses.
Closing: November 02, 2026

Comprehensive Opioid, Stimulant, and Substance Use Program Training and Technical Assistance (Department of Justice - Bureau of Justice Assistance)
Info: This is a notice of funding opportunity (NOFO) for the OJJDP FY 2026 Community and Schools Youth Drug Prevention Program. This opportunity supports states, units of local

government, federally recognized Native American Tribal governments and nonprofit organizations to deliver substance use prevention programs for youth in schools and extracurricular settings in coordination with law enforcement and community coalitions. This includes building community-based capacity and implementing a continuum of prevention strategies that address youth substance use, such as education, early intervention, mentoring, referral to treatment, and investigations in coordination with local law enforcement and community coalitions.
Applicants: Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; state governments; city or township governments; county governments; Native American tribal governments (Federally recognized); other units of local government.
Closing: November 09, 2026

Mentoring for Youth Impacted by Opioids and Other Substance Use (Department of Justice – Office of Juvenile Justice Delinquency Prevention)
Info: This is a notice of funding opportunity (NOFO) for the OJJDP FY 2026 Mentoring for Youth Impacted by Opioids and Other Substance Use program. This opportunity supports the implementation and delivery of high-quality mentoring services for youth who are currently using or dependent on substances, as well as youth at risk of substance use or who have close family members experiencing substance use or dependency. Mentoring services may include one-on-one, group, or peer mentoring—or a combination of these approaches or hybrid (traditional in-person combined with virtual mentoring).
Applicants: Public and State controlled institutions of higher education; Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; Native American tribal governments (Federally recognized); County governments; Independent school districts; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Private institutions of higher education; State governments; City or township governments; Units of local government; National organizations; Organizations having statewide reach that provide mentoring services.
Closing: November 16, 2026

Opioid Affected Youth Initiative (Department of Justice – Office of Juvenile Delinquency Prevention)
Info: This is a notice of funding opportunity (NOFO) for the OJJDP FY 2026 Opioid Affected Youth Initiative. This NOFO supports states, localities, Tribal jurisdictions, and non-profit organizations in addressing violent crime and reducing overdose deaths through prevention, intervention, and treatment strategies to support children, youth, and families affected by opioid, stimulant, and other substance use disorders. Applicants are expected to collaborate with law enforcement, juvenile and criminal justice agencies, schools, mental health and child welfare providers, community health agencies, and community-based organizations to address the needs of children, youth, and families who are at risk for or already in the child welfare or justice systems.
Applicants: Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; State governments; County governments; Native American tribal governments (Federally recognized); Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; City or township governments.
Closing: November 16, 2026

Family Treatment Court program (Department of Justice – Office of Juvenile Justice Delinquency Prevention)

Info: This is a notice of funding opportunity (NOFO) for the OJJDP FY 2026 Family Treatment Court Program. This opportunity will support state and local courts, units of local government, and federally recognized Tribal governments to establish new, or enhance existing, family treatment courts to ensure the provision of substance use treatment and other services that improve child, parent, and family outcomes. Family treatment courts serve parents who require treatment for a substance use disorder and who encounter and are engaged with the child welfare system because of child abuse, neglect, or other parenting issues. Family treatment courts provide intensive judicial monitoring and interventions to treat parents' substance use and/or co-occurring mental health disorders.
Applicants: County governments; City or township governments; State governments; Native American tribal governments (Federally recognized).
Closing: November 16, 2026

NOI: PROSPECT Program: Providing Opportunities for Specialized Education in Critical Technologies (Department of Energy - Golden Field Office)
Info: The U.S Department of Energy (DOE)'s Office of Critical Minerals and Energy Innovation (CMEI) intends to establish, on behalf of the Analysis and Strategy Office (ASO), the PROSPECT Program—Providing Opportunities for Specialized Education in Critical Technologies—and anticipates investing up to $100 million, subject to the availability of appropriated funds, to strengthen the nation's educational capacity in critical minerals and materials. The activities under this anticipated PROSPECT Program support collaborative approaches that strengthen educational pathways across the entire critical minerals and materials value chain—from mineral resource development and extraction through processing, manufacturing, recycling, and related supply chain activities. Specifically, the planned PROSPECT Program would build on existing investments in critical minerals and materials research, development, demonstration, and deployment by ensuring that the United States has the highly skilled workforce needed to support continued innovation and growth across the domestic supply chain. Through collaboration among academia, industry, national laboratories, and other partners, the program is expected to help develop a durable talent pipeline that strengthens U.S. economic competitiveness, energy security, and national security. This Notice of Intent (NOI) is issued so that interested parties are aware of CMEI's intention to establish this PROSPECT Program in the near term. All the information contained in this NOI is subject to change. CMEI will not respond to questions concerning this NOI.
Applicants: Unrestricted.
Closing: January 15, 2027

Specialized Alcohol Research Centers (Department of Health and Human Services – National Institutes of Health)
Info: The National Institute on Alcohol Abuse and Alcoholism (NIAAA) supports a broad-based Alcohol Research Centers program to foster and conduct interdisciplinary, collaborative research on alcohol misuse, Alcohol Use Disorder (AUD), and alcohol-related problems, and other health-related consequences across the lifespan. The NIAAA Centers Program provides leadership in research, and research methodology development on a wide variety of topics relevant to the Institute's mission. The focus of the NIAAA Centers program should be on generating a critical mass of researchers in a given understudied and/or innovative topic area relevant to the NIAAA mission with an emphasis on interdisciplinary coordination and cooperation among independent researchers and development and mentorship of young investigators. A center must contribute more to the alcohol field than the sum of its parts. Topics include but are not limited to, the nature, etiology, genetics, diagnosis, treatment, and prevention of alcohol misuse, AUD, alcohol-related end-organ diseases, and their biomedical, psychosocial, and population health consequences across the lifespan. Centers are also major

contributors to the development of research methods, technologies, and approaches that sustain innovative goal-directed research on understanding the chronic disorder of alcohol misuse that is such a personal, social and medical burden to US society.
Applicants: Native American tribal governments (Federally recognized); For profit organizations other than small businesses; Native American tribal organizations (other than Federally recognized tribal governments); Private institutions of higher education; Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; City or township governments; Special district governments; County governments; State governments; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Public and State controlled institutions of higher education; Small businesses; Independent school districts; Public housing authorities/Indian housing authorities
Closing: January 27, 2027

FY 2027 Continuation of Solicitation for the Office of Science Financial Assistance Program (Department of Energy – Office of Science)

Info: SC hereby announces its continuing interest in receiving applications for support of work in the following program areas: Advanced Scientific Computing Research; Basic Energy Sciences; Biological and Environmental Research; Fusion Energy Sciences; High Energy and Nuclear Physics; Isotope R&D and Production. On September 3, 1992, DOE published in the Federal Register the Office of Energy Research Financial Assistance Program (now called the Office of Science Financial Assistance Program), 10 C.F.R. part 605, as a Final Rule, which contained a solicitation for this program. Information about submitting applications, eligibility, limitations, evaluation and selection processes and other policies and procedures are specified in 10 C.F.R. part 605. This NOFO is our annual open solicitation that covers all research areas in SC and is open throughout the fiscal year (FY). Any research within SC's congressionally authorized mission may be proposed under this NOFO.
Applicants: See the full Notice of Funding Opportunity for more information.
Closing: September 30, 2027

Pilot and Feasibility Studies in Preparation for Substance Use and HIV Prevention Intervention and Services Research Trials (Department of Health and Human Services – National Institutes of Health)

Info: The purpose of this notice of funding opportunity (NOFO) is to support pilot and feasibility studies to inform the design and conduct of efficacy, effectiveness, and/or services research trials. Topics may include: 1) developing interventions to prevent substance use, misuse, or progression to substance use disorder; 2) prevention, treatment, or recovery services research, including research addressing comorbid pain and medical and mental health disorders; and 3) HIV eradication research, including implementation science, prevention, treatment and recovery in substance use settings/populations.
Applicants: City or township governments; Native American tribal governments (Federally recognized); Public housing authorities/Indian housing authorities; State governments; Small businesses; Special district governments; Independent school districts; Private institutions of higher education; Native American tribal organizations (other than Federally recognized tribal governments); County governments; Public and State controlled institutions of higher education; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; For profit organizations other than small businesses.
Closing: July 16, 2029

Supporting Small Businesses & Community Economic Development

Small Business Innovation Research & Small Business Technology Transfer Programs Phase II (Department of Agriculture – National Institute of Food and Agriculture)
Info: The USDA SBIR/STTR programs, Assistance Listing number 10.212, support scientific excellence and technological innovation through investment of Federal research funds to build a strong national economy by stimulating technological innovation in the private sector; strengthening the role of small business in meeting Federal research and development needs; and increasing the commercial application of Federally supported research results. Further, the objective of the STTR program is to stimulate formal cooperative partnerships of ideas and technologies between small businesses and partnering research institutions (e.g., Universities and Federal laboratories).
Applicants: Eligibility for the SBIR/STTR Phase II program is limited to only SBIR/STTR Phase I recipients. This includes recipients identified via a “novated” or “successor-in-interest” revised funding agreement.
Closing: November 17, 2026

NIH, CDC and FDA Small Business Innovation Research Grant (Department of Health and Human Services - National Institutes of Health)
Info: The Small Business Innovation Research (SBIR) program helps United States small business concerns (SBCs) bring scientific innovations to the marketplace. The SBIR program supports feasibility studies to later research and development (R&D) needed to develop a commercial product.
Applicants: Small businesses; Only United States small business concerns (SBCs), as defined by the Small Business Administration (SBA)(sbir.gov/apply) are eligible to submit applications for this opportunity. Refer to Section III. Eligibility Information in the NOFO for additional information on eligibility. Foreign Organizations/International Collaborations: Non-domestic (non-U.S.) Entities (Foreign Organizations) are not eligible to apply. Non-domestic (non-U.S.) components of U.S. Organizations are not eligible to apply. Unfunded international collaborations or unfunded foreign components, as defined in the NIH Grants Policy Statement, may be allowed.
Closing: April 05, 2027

SBIR/STTR Commercialization Readiness Pilot (CRP) Program (Department of Health and Human Services - National Institutes of Health)
Info: The Commercialization Readiness Pilot (CRP) program helps small business concerns (SBCs) move NIH-funded SBIR or STTR projects from late-stage development to commercialization. The CRP supports later-stage research and development (R&D) and/or technical assistance that Phase II and Phase IIB Strategic Breakthrough awards do not typically support. This includes: Independent replication or confirmation of key studies IND- or IDE-enabling studies Clinical studies Manufacturing scale-up and related quality activities Regulatory and other specialized technical support SBCs may subcontract (outsource) a significant amount of the work in a CRP to meet the project goals.
Applicants: Only United States small business concerns (SBCs), as defined by the Small Business Administration (SBA)(sbir.gov/apply) are eligible to submit applications for this opportunity. Refer to Section III. Eligibility Information in the NOFO for additional information on eligibility. Foreign Organizations/International Collaborations: Non-domestic (non-U.S.) Entities (Foreign Organizations) are not eligible to apply. Non-domestic (non-U.S.) components of U.S. Organizations are not eligible to apply. Unfunded international collaborations or unfunded foreign components, as defined in the NIH Grants Policy Statement, may be allowed.
Closing: April 05, 2029

EDA FY25 Disaster Supplemental (Department of Commerce - Economic Development Administration)

Info: Through this Disaster NOFO, EDA will award investments in regions experiencing severe economic distress or other economic harm resulting from hurricanes, wildfires, tornadoes, floods, and other natural disasters occurring in calendar years 2023 and 2024. EDA's goal under this NOFO is to assist communities recovering from a disaster by realizing opportunities to recover and change the economic trajectory of the community for the better. EDA seeks projects that are responsive to community needs post-disaster by engaging all aspects of the community, with special focus on private industry partners. This Disaster NOFO provides funding through three pathways:

- Readiness Path – Standalone non-construction projects designed to increase a community's readiness to apply for or implement disaster recovery funding from private and public sources including, but not limited to, future EDA NOFOs and the Implementation or Industry Transformation Paths under this NOFO. Projects will fund strategy development, capacity building, and/or predevelopment costs necessary for future recovery projects.
- Implementation Path – Standalone construction or non-construction projects designed to address the economic challenges faced by a community recovering from a natural disaster and improve economic trajectories beyond pre-disaster economic conditions.
- Industry Transformation Path – Led by a coalition of regional stakeholders, a portfolio of large-scale, multicomponent construction and non-construction projects designed to fundamentally transform the economic trajectory of a region through the development or acceleration of an industry.

Applicants: all Nonprofits; Independent school districts; County governments; Native American tribal governments; Eligible applicants under the FY25 Disaster program - see more on the grant posting.
Closing: No submission deadline

Transportation & Infrastructure

Fiscal Year 2026 Wildlife Crossings Pilot Program (Department of Transportation – Federal Highway Administration)

Info: The purpose of the WCPP is to provide funding to eligible entities for projects seeking to improve safety of the traveling public by reducing the number of wildlife-vehicle collisions (WVC) and, in doing so, improve habitat connectivity for terrestrial and aquatic species. This NOFO will award approximately $80 million in Fiscal Year (FY) 2026 funding via cost reimbursable grants. DOT may also award any remaining and available funds from previous fiscal years under this opportunity. The actual amount available to be awarded under this notice will be subject to the availability of funds. NOTE: The information under 'Award' on this page requires the specification of a minimum and maximum dollar value for anticipated awards due to Grants.gov system requirements. However, as stated in the NOFO, there are no minimum or maximum award sizes.
Applicants: State Department of Transportation (State DOT); Metropolitan planning organization (MPO); Units of local government; a regional transportation authority; a special purpose district or public authority with a transportation function; Indian Tribes; a Federal Land Management Agency (FLMA); or a group of any of the above entities.
Closing: November 16, 2026

FY26 Innovative Traffic Safety Enforcement (ITSE) Grant Program (Department of Transportation - National Highway Traffic Safety Administration)

Info: While the agency will consider innovative enhancements to existing countermeasures, the goal is to develop evidence-based projects that are scalable and transferable for use by State and local law enforcement agencies. The primary intent of this of the ITSE Grant Program is to 1) develop innovative traffic safety enforcement programs that demonstrate effectiveness by reducing the number of motor vehicle crashes due to one or more of the subject risky driving behaviors; and 2) ensure the traffic safety enforcement programs are repeatable and scalable for use by law enforcement throughout the United States. In addition to those goals, the Department seeks to fund projects that advance the priorities of this Administration as described in DOT's mission statement and across executive orders.
Applicants: Others (see text field entitled "Additional Information on Eligibility" for clarification); Public and State controlled institutions of higher education
Native American tribal governments (Federally recognized); City or township governments; Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; County governments; Special district governments; Private institutions of higher education; Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; State governments; Native American tribal organizations (other than Federally recognized tribal governments).
Closing: September 01, 2027

Veteran's Support

State Veterans Home Construction Grant Program (Department of Veterans Affairs)
Info: Grants are available to State and Tribal Governments for construction or renovations of State/Tribal owned and operated Veterans Extended Care Facilities. The Department of Veterans Affairs participation may not exceed 65% of the total project costs. Review governing regulation before submitting an application (38 CFR Part 59).
Applicants: State governments; Native American tribal governments (Federally recognized).
Closing: Applications are accepted on a rolling basis

Workforce Development & Higher Education

Hispanic-Serving Institutions Education Grants Program (Department of Agriculture – National Institute of Food and Agriculture)
Info: The HSI Education Grants Program, under assistance listing number 10.223, will promote and strengthen the ability HSIs to carry out education, applied research, and related community development programs. This program encourages innovative teaching, education, or related community development proposals with the potential to impact and become models for other institutions at the regional or national level. Applications may propose, as part of a formal education and teaching program, that students gain experience with an applied research and community outreach activity. While HSIs are the only eligible entities to apply for this NOFO, funded projects should benefit the entire population at the institution, not solely the Hispanic population.
Applicants: Applications may only be submitted by Hispanic-Serving Institutions. For the purpose of the HSI Education Grants Program, an HSI is an institution of higher education that is an eligible institution as defined in 20 U.S.C. 1101a(a)(2) and has a minimum of 25 percent undergraduate full-time Hispanic enrollment (20 U.S.C. 1101a(a)(5)). Certification of Eligibility. Eligibility documentation must be submitted with the application. At the time of application, each primary applicant will be required to demonstrate or certify that it is an eligible institution under the HSI Education Grants Program. Collaboration grant applicants must also provide documentation to certify their HSI collaborators. An institution must submit a letter signed by the institution's Authorized Representative (AR), certifying that it meets the requirements of an HSI as defined below. Data used for certification should be the most recent available but no older

than the 2023-2024 academic year. Please indicate the timeframe that the relevant data is collected from in the letter. More information about applicant eligibility can be found in the full NOFO.
Closing: December 03, 2026

IUSE: Innovation in Two-Year College STEM Education (U.S. National Science Foundation)

Info: The National Science Foundation (NSF) plays a prominent role in the improvement of undergraduate STEM education at the Nation's colleges and universities. Through the IUSE: Innovation in Two-Year College STEM Education (ITYC) program, the agency seeks to extend this effort by making an intentional investment in the country's two-year institutions of higher education, or two-year colleges. The twin goals of the ITYC program are to (1) center students in the effort to advance innovation and promote success in STEM education at two-year colleges, and (2) enhance the capacity of two-year colleges to harness the talent and potential of their student and faculty populations through innovative disciplinary, multi-department, and college-wide efforts. These goals will be achieved by investing in projects at two-year colleges that contribute to student success in STEM-based foundational courses and academic pathways for both majors and non-majors. Project activities may be in any discipline that is currently supported by NSF funding, which includes the social, behavioral, and economic sciences. Collectively, projects in the ITYC program will make progress towards ensuring that two-year college students and faculty have the resources to participate in and contribute to the broader STEM enterprise.
Applicants: Proposals may only be submitted by two-year colleges of higher education, either Associate's Colleges (institutions at which the highest-level degree awarded is an associate degree, including transfer and career/technical oriented colleges), or Baccalaureate / Associate's Colleges (institutions that award at least one baccalaureate degree but confer at least 50% of their degrees at the associate level) that are accredited and offer undergraduate educational degree programs in science, technology, engineering, and mathematics (STEM). Organizations may partner with a two-year college as a subaward or as a collaborator. For all collaborative proposals, two-year colleges must be the lead organization.
Closing: December 09, 2026

State and National Competitive Grants (AmeriCorps)

Info: AmeriCorps improves lives, strengthens communities, and fosters civic engagement through service and volunteering. AmeriCorps brings people together to tackle some of the country's most pressing challenges through national service and volunteerism. AmeriCorps members serve with organizations dedicated to the improvement of communities and those serving. AmeriCorps grants are awarded to eligible organizations that engage AmeriCorps members in evidence-based or evidence-informed interventions to strengthen communities. An AmeriCorps member is a person who does community service through AmeriCorps. Members may receive a living allowance and other benefits. After successful completion of their service, members earn a Segal AmeriCorps Education Award they can use to pay for higher education expenses or apply for qualified student loans.
Applicants: State governments; county governments; city or township governments; special district governments; Native American tribal governments (federally recognized); Native American tribal organizations (other than Federally recognized tribal governments); nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education; nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; public and state controlled institutions of higher education; private institutions of higher education; State Service Commission; U.S. Territories.
Closing: January 13, 2027

Multidisciplinary Research Program of the University Research Initiative (Department of Defense – Department of the Army Materiel Command, Army Research Office)
Info: DoW's MURI program addresses high-risk basic research and attempts to understand or achieve something that has never been done before. The program was initiated 40 years ago and it has regularly produced significant scientific breakthroughs with far reaching consequences to the fields of science, economic growth, and revolutionary new military technologies. Key to the program's success is the close management of the MURI projects by Service Program Officers and their active role in providing research guidance.
Applicants: This MURI competition is open only to, and proposals are to be submitted only by, U.S. institutions of higher education (universities) with degree-granting programs in science and/or engineering, including DoD institutions of higher education. To the extent that it is part of a U.S. institution of higher education and is not designated as a Federally Funded Research and Development Center (FFRDC), a University Affiliated Research Center (UARC) is eligible to submit a proposal to this MURI competition and/or receive MURI funds. Ineligible organizations (e.g., industry, DoD laboratories, FFRDCs, and foreign entities) may collaborate on the research but may not receive MURI funds directly or via subaward.
Closing: April 09, 2027

Multidisciplinary Research Program of the University Research Initiative (Department of Defense – Air Force Office of Scientific Research)

FAA Aviation Research Grants Program (Department of Transportation – Federal Aviation Administration)
Info: The FAA Aviation Research Grants Program encourages and supports innovative, advanced research of potential benefit to the long-term growth of civil aviation and commercial space transportation. The pursuit of basic and applied research in scientific and engineering disciplines that have the potential to further knowledge and understanding on a broad front of emerging technologies is crucial to the realization of this goal. The intent is to encourage applied research and development to enhance technology assimilation, transfer, and development in the FAA. Topics of interest may include:

- Capacity and Air Traffic Control Technology
- Communications, Navigation, and Surveillance
- Aviation Weather
- Airports
- Aircraft Safety Technology

- Human Factors and Aviation Medicine
- Systems Science/Operations Research

Applicants: Public and State controlled institutions of higher education; Private institutions of higher education; and Nonprofits having a 501(c)(3) status with the IRS.
Closing: September 07, 2027

Lasker Clinical Research Scholar's Program (Department of Health and Human Services – National Institutes of Health)
Info: This NOFO encourages applications for the Lasker Clinical Research Scholars Program. The program supports the research activities of clinical researchers during the early stages of their independent careers as they work to improve human health. The program offers the opportunity for a unique bridge between the NIH intramural and extramural research communities and contains two phases. In the first phase, Lasker Scholars will receive appointments for up to 5-7 years as tenure-track investigators within the NIH Intramural Research Program with independent research budgets. In the second phase, successful scholars will receive up to 3 years of NIH support for their research at an extramural research institute or can remain as an investigator within the intramural program.
Applicants: State governments; county governments; city and township governments; special district governments; Native American tribal governments (Federally recognized), Native American tribal organizations (other than Federally recognized tribal governments); nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; nonprofits not having a 501(c)(3) status with the IRS, other than institutions of higher education; private institutions of higher education; public and state controlled institutions of higher education; independent school districts; for profit organizations other than small businesses; small businesses; public housing authorities/Indian housing authorities.
Closing: July 07, 2028

University Nuclear Leadership Program - Scholarship and Fellowship Support (Department of Energy – Idaho Field Office)
Info: This Funding Opportunity Announcement (FOA) is to award multiple cooperative agreements to accredited United States (U.S.) two- and four-year colleges and universities (Institutions of Higher Education (IHEs)) to receive and administer scholarship and fellowship funding—provided through the University Nuclear Leadership Program (UNLP) and as administered by the Department of Energy, Office of Nuclear Energy (DOE-NE)—on behalf of selected students attending these U.S. IHEs. The selection of students to receive scholarships and fellowships through the program will occur via a separate DOE-NE process.
Applicants: Private institutions of higher education; and Public and State controlled institutions of higher education.
Closing: October 14, 2030
